

**THE FALLEN SPIRITS IN THEIR TERRESTRIAL
JOURNEY – III**

FROM “EXTRATERRESTRIALS AND US”

“The separation between the wheat from the tares takes place rapidly. Creatures attached to the matter will repeat the primary grade in other worlds compatible with their spiritual graduation (...)

(...) Men believe or not, the planetary events occur at high speed.

We all are on the way of evolution, which acceleration or not will depend on each one.

"It is individual and nontransferable to choose the way to tread."

Marcos Novaes
spiritual worker of the GESJ

EXILED, BANISHED OR FALLEN SPIRITS

**Mediumistic Work by
GESJ (Grupo Espirita Servos Jesus)**

"The essence of life animates the bodies giving them the soul, in all creatures, as a single thread conducting the web of life."
"Every being that awakens is a light in the dark earth to shine those still immersed in darkness".

Lobsang Rampa, Lama of Tibet

Free are those who are not seduced people by the matter!

Free are those who have everything doing not attach to anything!

An Extraterrestrial

PRESENTATION

... "All revelations were not enough to awake them; only the catastrophic events may interrupt their destructive actions.

The Planet Earth dies at this dimension and humanity goes toward the exile.

Jesus works hard to rescue creatures and conquer generous hearts that in His Name struggle for liberation of the planet and its humanity immersed in the darkness toward the World of Regeneration.

His presence is intense where workers in His Name disseminate hope and fraternity.

Blessed be Jesus!"

Andre Luis

OPENING AND ILLUMINATING WAYS

We did not intend present this book, as well as, the first two already published, within the technical norms used by historians and writers, because this is not a textbook carefully organized into academic standards.

By the way, this is a transcendental work, which objective is to awaken those who still sleep, to throw away the laziness and comfortable convenience of others, and warn the unvigilant ones. Finally, the objective is to spread light in the darkness amidst of planetary chaos, opening trails so that travelers of this long road, Life, get to reach the last "transport" towards a safe port.

Read it carefully, free of prejudices.

Why should be necessary high technology and scientific progress, without "love one another" as the Basic Commandment for all humanity?

Cataclysms of every nature occur around the orb, as answers from Nature to foolish human actions.

Our Great Extraterrestrial, Commander Yuri, a friend of our Spiritist House – GESJ said:

"... We only have the wide vision given us by the Cosmos, about a sick and destroyed earth by man who exploits and removes her precious energies either to maintain the planetary balance or the whole system."

Men can intervene on everything allowed by their free will, however, there are limits, and when their choices reduces the stability of the cosmic system, the Superior Entities intervene saying, Stop!

This humanity must bear in mind that the Universal Law of Love, Progress and Justice determines the limit of insanity.

We would like to bring other news, but we do not have. Black waves of dislike, disrespect, greed, excessive power are spreading rapidly throughout the planet, with several consequences due to the errors committed in name of inferior passions"...

We are happy bringing to you, the other messages on "Fallen Beings in their terrestrial Trajectory".

May Jesus bless us!

Margarida, representing GESH, 2nd semester of 2008

Just as foreword

“... You are free to act, but obliged to face the consequences of all your actions before your immortal conscience.”

... "This is the incarnation key to determine your spiritual future.

Where do you think go misusing your actions?

Where are you going with excessive rude actions?

Give up your negative actions. The time has come for separation between the wheat and the tares; the sheep from the wolves and, the inevitable Law of Love reach you in any social or racial toward painful exile.

Jesus, all Love and Light bless us!

Ramatis - Kuthumi

I - PLANETARY TRANSITION

Peacetime is over.

Men are slaughtering, and fear dominates their souls.

The Planet Earth faces its terminal phase of immense pain.

Men do not believe that their destructive and predatory actions have exhausted the vital forces of the planet. They are unable to impose a discipline to not destroy the brother and the planet where inhabit.

The limitation of destructive actions and depredation on the Environment could bring material damage to their narrow interests and greedy.

Men do not worry if the planet will explode destroying many lives.

Nevertheless, material and economical damages must be avoided.

They have selfish and despotic consciences, reduce chances of survival of the earth and its people, and accelerate more and more the final torments.

Jesus and His Lessons represent just one more way to get money.

Important rituals, medals, talismans, holy water, rosaries, crosses of wood, gold, metal and diamonds, no possibility is neglected to get money and material goods.

The immortal spirit is forgotten amidst of intense appeal material.

They think, "If money is necessary even for holy things, why not exploit it?"

People's dark and negative intentions emit vibrations attracting **beings of darkness** that allied to disrespect and negligence to themselves, the neighbor and Divinity allow the negative beings judge owners of the entire planet. Deluded, in the invisible plane, they invest more and more on negligent human beings, seeking their energies.

Lower vibrations of embodied spirits and other negative inhabitants of invisible planes saturate the Planetary House.

This intense negative pressure accelerates the catastrophes of "end of times".

Those who believe in peaceful "Planetary Transition" free of disasters, they are under self-hypnosis and cannot see the real world they inhabit, pretending not to hear the news speaking of global imbalances and horrors.

Even so, God Almighty sends children, Extra and Intraterrestrials to help and comfort human beings, however these reject them.

This planetary cycle is finishing and, unfortunately, this humanity will inhabit other planet, except those faithful to Jesus.

The sacrifice of Jesus remains alive in sensitive hearts that have already wakened the conscience and attentive about the warnings from High spheres earthwards. Some creatures that practice the Gospel of Jesus may inhabit the Earth of Renovation.

Brothers,

"Jesus no more is that being nailed on the cross.

He is Life that pulses around you on earth.

He is the Road, the Truth and the Life. Only through Him, you will be

free.

Joseph Arimathea, 04/13/07.

11 – SHEDDING LIGHT ON THE DARKNESS

Blessed be Jesus, Divine Friend and Master!

The history of man on earth is a mystery to humanity that only refers to material facts, because they simply deny its existence and activity. Therefore, any new fact referred to Immutable Truth of Universal Laws of Cosmic comes by the Father's Mercy that reveals truths, even though most of people doubt on it.

For faithful disciples connected with subtle vibrations, these truths will be very important, as confirmation of what, at heart, they already felt and knew.

The terrestrial people remain in mistakes wrapped with lower vibrations and unable to get superior knowledge.

Even the Excelsis Jesus failed to remove all the crusts, which keep them prisoners on Earth.

Only the pain will rescue this humanity thrown into exile according to their will.

Go sisters, shedding light on the darkness.

Peace is with you!

Yuri

Commander of all rescue of the planetary transition

III - WORDS FROM MEDIUMS – GESH

1 - All work on the Vineyard of the Lord Jesus lovingly offered by our Spiritual Guides and Masters seeking our spiritual redemption is grandiose for our souls thirsty for renewal and progress.

Thank you, Beings of Light for the trust you have bestowed on us, as imperfect creatures.

Likewise all the works already published by GESJ, this also has the objective to awaken consciences through important messages that deeply touch our soul with desire to progress in a better world.

Thank you, dear Jesus, for the opportunity to serve in your Vineyard of Love and Light!

Medium Edilza

2 - God in His infinite goodness directed our way to this incarnation that, at the beginning, unable to understand, we had several doubts and questions such as, where and why some situations.

We, gradually devoted on studies, discipline and hard work, the answers arrived. Nowadays, aware of miseries and exiles suffered, welcomed by our Mother Earth, we recognize the importance of our current existence (incarnation key) for our spiritual progress, after countless falls in our long journey on earth.

After concluding this serial book "*The Fallen Beings and their Terrestrial Journey*", we are thankful to our God Almighty, Master Jesus, Master Ramatis and our spiritual friends of past lives for their hands extended us so that we participated with fraternal brothers of same ideal.

We also thank our evolved brothers who brought us the messages for this public work that will help those who wants reveal the invisible.

The lessons learned are petals of light in our journey.

Faith is our foundation to strengthen our spirits.

Maria Clara

3 - We hope the realities brought in this on this book can awaken many consciences that are falling more and more. To go down is more difficult with suffering and pain.

To go up is an arduous task, which requires effort and courage.

These warnings are "Strings of Light" thrown to beings already wakened for spiritual progress.

We hope they remain in determination, courage and faith; sure, that, on the other side of the rope is someone who waited this moment for long time.

Penha

4 - Peace to all!

We are only one people in this incarnation on Earth. Even so, in the geographical environment, we create boundaries separating us from other countries, in the economical field, we created values segregating us different nations and, psychologically we create walls of misunderstandings keeping us distant from each other.

From one people, we create many peoples and the intolerance that dominates the humanity promoting conflict, war and pain. We act like brothers looking for love of parents, abusing and mistreating each other.

Even so, messages of hope reach us and, as wise lessons sustain us on our journey on earth, indicating us the better route so that we enjoy this gift of life. These messages act as lighthouse guiding us, and represent the goodness and mercy of the Creator. Thus, thankful to Him, we want to share them with all of you.

These Lessons show us the direction to unity and stay with us so that we recognize ourselves as one people, created by one God, without frontiers and bound to be one people composed of many brothers.

May these vibrations of fraternity touch you, like refreshing breeze in the summer heat!

Medium Penny

5 - "Who am I? Where I come from? Where shall we go?" are questions that always bothered the humanity.

There is no time for questions. We are in time of choices and attitudes. Thus, Our Father infinitely good through Superior Spirits of this and other orbs, and of subterranean worlds, allows these three books to remove the veil covering the answers sought.

For such purpose, we must have eyes to see, ears to hear, trust in God and courage to take the hardest journey of knowledge, which begins within us.

Welcome to this trip!

Simone

PART 1 – MIDDLE EAST

People of Earth! Hear the call of Light.

The strident sounds of Trumpets have announced the beginning of the Apocalypse.

The sounds of catastrophes are present in many countries, and each piece of the earth emits groans of pain due to insistent and endless human aggression.

The answer to so much violence already began.

The intense suffering imposed will be received back.

You chose the pain when deprived the love of your actions.

Love without borders ceases to exist, and racial barriers increase.

Similar Races destroy each other and brothers become adversaries.

... You beg pardon to God, but you ignore the Love and do not forgive your neighbor.

Zeus, Festival of Wesak, May of 2008

CHAPTER 1 – PEOPLE AND RELIGIONS

Today, at the end of the planetary cycle, Greatest Nations only discuss the concept of Fraternity, without implementation of any.

The bankruptcy comes from humans who did not cultivate the noble virtues to the detriment of lower instincts latent in the soul.

They will repeat, yes, in a rough way, the neglected lessons in another orb.

Lobsang Rampa, Tibetan Lama

01. Jewish People

Q: Master, in my mind a question repeats: why so much hate, wars and division just where lived Jesus?

A: The incredulous, warlike people, Jews insist on dominating everything surrounding them, including human life to serve those considered beings more capable.

Israel, as current habitat of the "Beast" contains the largest number of reincarnating Reptilians fallen in neighbor orb, where lived those creatures. They are not their direct descendants; however detain their genetic heritage of wild instinct, brought from distant reptilians. Their seeds of hate spread on earth like weeds infiltrating by everywhere, even in the most inconvenient cracks of cement and concrete. **The Lord Jesus came on earth to touch those hardened hearts.**

The concentration of these beings in a defined territory was postponed for many years in order to prepare the humanity for confrontation with those perverse beings of petrified hearts. The encounter and permanent presence at certain area created magnetic waves resulted into openings of portals for access of the most terrifying creatures imprisoned in another dimension, without opportunity of manifestation in the physical plane.

Q: Then, it was known that together at certain area, they would irradiate dense energy for opening of negative portals. Is not it?

A: Yes, the negativity comes from primitive emotions of those creatures, whose feelings as you know, they are developed and purified do not exist. They still cultivate the desires of accurate control, ownership and slavery.

Their nature similar to the Reptilians keeps them harmonically. Where the pride and selfishness disseminate ramifications, the love remains embryonic, waiting for pain, fertilizer of evolved feelings germinate able to activate the dynamo of life.

Q: As we know, there are also good spirits among of Jewish People.

A: Surely, since the spirit originating from Divine Spark has seed of good, often still in latent state.

Nevertheless, they were deeply rooted to the instinct of possession and refused the presence of Divine Jesus and His example of simplicity. That Lesson of love that leads to the Father, not for pride, but respect shared among brothers. They refused to receive in their hearts the Only Being on earth able to touch in their Christian Flame Christ of life.

As result of their refusal to Christ's Good News, the spiritual community known today as Jewish People, as well as the religious sects like Judaism became stationary on the evolutionary path and still wait the extraordinary event to demonstrate the reason for existence.

They wait in vain, also delaying all humanity, because the Jewish community, as community-cell of humanity, historically has accumulated heavy difficulties of karmic nature.

Ramatis, 08/11/06

02. Moses and Jewish People

After free, the people from oppressive slavery by Pharaohs and placed in a desert under heavy weather and difficulties, soon their wild instincts

manifested and we could understand the reasons that kept them enslaved for centuries.

I took long time to recognize my people as slavers of other people due to not break them lazy, undisciplined and rebel nature

I liberated them from despotic enslavement and thence, they gave flow to their instincts of destruction.

Today, to recognize this fact no longer hurt me as at the time I realized it.

I see the humanity that likewise my people at that time refuse discipline and obedience even to the Divine Laws and Moral Code of Jesus' Gospel. Whether this was followed, my people would have under control their wild instincts.

Brothers, the rude nature of embodied spirits or not demands excessive energies to direct them to right path. Even the efforts of several Beings of Light can only rescue a few souls. Even the ultimate sacrifice of Jesus did not transform all who heard His teachings.

Each creature is responsible for own delay or spiritual progress. The guiltier is who despises more opportunities.

Therefore, brothers, messengers of the good, do not worry too much for this or that rebel who falls or does not adhere to the Sublime Lessons, even closer the Great Transition. Keep working on behalf of Christ, waiting for changes in those who follow us, but each one in its time.

Evolution is not imposition, but conquest of each creature.

The Lessons of Jesus illuminates the path of spiritual ascension. It is an individual and nontransferable choice to thread this road.

Large contingent of my people still wander amidst of ancient ruins, without see the path of light, they could reach.

The loving Father supports all leading them in their choices.

The Master Jesus loves us with His Infinite Love.

Moses, 05/26/07.

03. African people - collectivity-cell of Africa

The collective-human cell designed to break the chains of crimes against life was grouped around the African Territory. There, the continental core had the primary conditions to receive the second step, the second cycle of reincarnating spirits.

The first stage should be the creation of human species, with miscegenation between terrestrial and non terrestrial beings, since, on African soil there was the encounter of different races to which was designed to blend gene with essential characteristics for future earthly humanity.

Heavy loading of vital energies was produced and threw into space of that territory, creating in the astral plane, spreading fluids that later would serve to compose another group of spirits, now more similar to human form, but still with a strong animal magnetism.

Q: Master, as if the African continent were a spiritual cradle to purify the human energy and to develop certain types of energy. Is not it?

A: Although still unable to elevate the mind upwards, the mediumistic faculty has increased the intuitive understanding and development. After appropriate adjustments and corrections, the African Continent can be considered spiritual cradle, from where emerges edifying vibrations able to

strengthen energy flows through the human energy, the chakras, developing them for progress and purification of the soul.

While starving, children, young adults and African release from splenic chakra, violent aggressive character of their souls that at other times, were factor of vile crimes against humanity.

Our objective is not defending the insane distribution of income and food that subjugates the weakest and helpless ones to the martyrdom of poverty and hunger. Just to clarify your still infantile minds in understanding on spiritual life that no suffering reaches a creature, if were not carefully studied the exchange of forces composing the soul, or measured the consequences of such performance of the instruments of pain for improvement of creatures.

When you understand the magnitude of God's love, you will know that no being is helpless, and your words as a mere repetition of phrases as prayer, it is empty in your souls, still unable to understand the true meaning of the Divine Mercy.

The African people are suffering and purging vile crimes of past lives and, although their voices echo as painful screams and laments, the dirt expelled from their minds meet the content of aggression and violence reduced, compared to other collective cells, these still disseminates the most potent poison of pride as unlimited fury.

Water and food shortages, and the miserable poverty of African people favors the charity, which invite other groups-cells to aid little children, women and old people helpless and needy of all sorts of material aid.

That state of extreme poverty should touch other human beings.

It should waken the feeling of compassion that animates the soul through the charity, elevating the spirits above the selfishness profane, as learners of sacred altruism.

I wished that your people could understand the link between short and long events involving groups-cells.

So much progress would save tears and desperate cries. The world in which we live is an open book of life, where God writes to instruct you. Nevertheless, as illiterate ones still unable to decode the alphabet of spiritual life, and so will remain, while the appeal material dominates them.

So much knowledge has been produced on Earth, and often serves to perpetuate the cycle of life in this area, transitory, while the cycle of spiritual life remains restrict to small groups of beginners, not always interested in its content. Even so, the Law of Progress does not stop, despite the negligence of his humanity rather child in spiritual matters. Thus, prejudice prevails.

When you stop looking at suffering, as opponent, and see them only as consequences of imperfections brought into the soul, you will understand that your greatest opponents are yourselves.

Only when win the battle in the moral field, the healthy links may provide communities-cells of equal health, cleaning the planetary (status) and the, the Planet's vibration may change by the collective effort to love and serve unconditionally, as taught by the Rabbi of Galilee.

While is not possible the evolutionary jump through the effort and work, the pain answers for adjustments in your still imperfect souls, pouring on you, the balm still incomprehensible of crying.

Ramatis, 09/08/2006.

04. The Italian-Roman Community Cell

The Roman State, historically gathered in its spiritual constitution, negatives spirits that practiced black magic to achieve their illusory purposes.

Spirits who, over the centuries invested on profound knowledge on alchemy, palmistry, voodoo and other occult forces, affecting more and more subsequent incarnations. They composed spiritual families that subsequently touched by Christ's Lessons would receive a redeeming task of making public His Lessons and the Foundation of the liberating Church.

Nevertheless, errors of past lives still latent, involved their souls distorting the spiritual vision of long reach, and then, impelled that community for persistent unlawful practices seeking domination, glory and wealth.

It is said that the Italian territory contains large number of souls engaged with satanic practices, in the basements of many temples known as reputable churches. They pray to black crowds, while sacrificing victims on behalf of the Beast that has many followers.

From the Roman "community-cell" also leaves nuclei feeding different human groups throughout the world worshipping the "Beast."

A branch of the Egyptian people settled down where still follows the lifestyle determined by karma engendered in cursed practices.

The bloodshed in that point was, for many centuries, superior that other parts of the orb, being built in the underworld astral, powerful cities with powerful, destructive arsenal.

The Church of Christ represents the seat of the building destined to illuminate the human society, and was gradually purified by constant planning by the High sending brothers, whose preparation sought to disaggregate in the physical plane, the harmful concentrated in the astral plane. Many of them have failed.

The Italian secret society composed into spiritual family with violent spirits represented resource of salvation where the bloodshed would not result from satanic rituals, which remain over there. Nevertheless is infinitely small number of cases, compared to past occurrences.

The extreme violence of the Italian Secret Society represented the necessary transition between the magician of yesterday and the man of lower feelings today.

The black magician of the astral plane became the common reincarnating man with violent negative vibration of black magic accumulated over centuries.

For everything forementioned, the dark cloud hovering over the community-cell Roman-Italian, a fateful omen that only rain of destructive energy could drain completely impurities involving those spirits.

If is difficult to clean up the astral plane of other regions, in that region, the access is restrict and controlled by the Spirituality, as only some selected workers can support the consequences of shame concentrated in the astral field of the Homeland Church.

Forces of Light are by everywhere, as well evolved extra and intraterrestrial brothers try to rescue those brothers in that region. They also cooperate with Representatives of the Catholic Church in removing them from influence of the "Beast" approaching them through the simple and loving words of Christ.

Nevertheless, each one has free will. We hope the dense black cloud disappears so that the Light that restores and promotes the human spirit cross through the portals of human energy.

Ramatis, 09/29/06.

05. Pardon and Love cease to exist

Muslims, Jews and Christians are the reverse of same coin.

They set their minds on radical and fanatic ideas that keep their spirits prisoners of painful incarnations.

The hallmark of pain no longer awakes them, anesthetized, thinking that the Divinity takes vengeance and then, they attack the Divinity. They refuse ideas of forgiveness and love.

Dogma, fanaticism and religious submission continue. Forgiveness and love no longer penetrate the hearts petrified with religious prejudice. Each creature is immersed in its sectarian world delaying the humanity and responsible again, for fall and exile.

The prophecies are confirmed; the darkness is painful and cruel. The Planet responsible for guiding the humanity is without command, according to the distorted view of many that changed the balance and common sense into instincts of destruction that should already have mastered, since long time. Disturbed by guilt and doubts, these brothers remain in lower frequency, as leftists of Christ.

Neither Allah nor Mohammed nor the prophets and the saints, only Jesus, Simple and Humble is the Way of Light and Progress. He is the Way, Truth and Life.

Arimathea, 04/13/07

06. They drag imperfections from one planet to another!

The human imperfection is not excuse for so many insane actions and lack of love among creatures.

The ideal of intellectual beings who work tirelessly, life after life, improving tyranny is to subdue the others. When Divine Law through the pain imposes them, the respect and love denied to the neighbor, the human imperfections that justify the errors turn into "errors of the Creator, when planned His children's life.

Only through the same pain impinged to the neighbor, the human imperfections become virtues.

The millenarian imperfections and deviations of the immortal soul break the transformation of humanity to better evolutionary graduation.

The hatred creeps from one planet to another, from one cycle to another, and, again will carry entire communities in depressing spiritual delay to another sphere, in a new exile.

The roots of human suffering are in their soul, and are not in the matter, the solution of cure.

Jews, Sunnis, Muslims, Shiites, Mohammedans, no matter the name adopted, the ancient spirit rooted in hatred and revenge, through the barriers of time and the universe are facing endless hate.

It is the manifestation of still primitive spirits.

They are unable to decode the Lessons of Love said by Beings of Light whom they follow with wild fanaticism of violent and uncontrolled souls, magnetized to each other by the lower vibrations.

Few ones, separately, can move forward.

They act as a "group of souls", although having individuality and free will.

They drag their imperfections from one planet to another, searching for confronts until the extermination, if it were allowed. They are antagonistic souls will separated to make progress.

The blindness due to the fanaticism distorts the messages of "pure love" launched from on High among them, and so changes them into hate, violence and death.

The eternal revenge dominates them fed on hatred. Their obtuse minds do not want a world in harmony with higher ideals and different races peacefully. They only think about themselves, while battles dominate their lives.

The shocks of violence did not touch their souls, only increases more hate, anger and desire for revenge.

When are reborn in other races, they feel strange and isolate themselves. Few were absorb new cultures and knowledge, and to refrain the hate.

They live life after life searching for "paradise", the "lost Canaan," the "Eldorado," crossing the deserts of hate and blood, without undressing the negative feelings, preventing them to reach the "City of Peace." They feed the Beast's habitat, creating new links with abysmal regions.

They do not intend dominate the world, just to exterminate it, in vain illusion of finding the "Treasure of Allah."

Oppressors and oppressed take turns in different incarnations and reach the end of another planetary cycle with same feelings leading them to exile, and, again, "scandal" forces them to painful exile.

The profound teachings of Jesus Christ and His Disciples did not reach their minds crystallized in hatred.

The die is cast and some planet waits those poor souls.

Ramatis, 03/02/07.

CHAPTER 2 - Antagonistic Races

To go up the mountain of renouncement and sacrifice is only possible for brave spirits already free from the matter and unhealthy feelings.

The humanity did not recognize the Earth's Savior manifested in the matter, and those who recognize Him now, do not follow His Lessons of love and forgiveness...

... Sufferings and pains are for everyone, without distinction, but only the meek and peacemakers will ascend to a better world.

We are only one people vibrating in favor of the planet and its humanity.

Peace must be built with fights, and these should cease to give place to a world of peace.

Master Maytreya, (GUWF), Festival of Wesak, 2008

01. The Sacred Book and the Prophets

The Koran, the Muslim's sacred book designed to lead the crowds, directing their minds to noble feelings and attitudes, to restore them the souls moral and spiritually, as well as the Bible has suffered serious distortions, which instead of opening the consciences, obscured them.

The Koran, the sacred book of liberation, became one big mistake and stagnation of souls in lower vibrations, therefore, incites hate and prejudice of race and violence.

The Muslim sectarianism and Koran primitivism delay the wakening of reactionary consciences and opposed to evolution.

Koran provokes the stagnation of the soul and transforms the societies under its influence in backward, fanatic societies stigmatized by the man of the 21st century that do not follow the progress of humanity. Even though their physical bodies also occur as all people around the world, their minds remain stationed in fear, prejudice and slavery. Although the Hosts of Light try to break the sectarian ties keeping them behind, communities preserve their archaic cultures, transmitted from generation to generation closed to influence of superior minds.

Parked in ostracism and cruelty, are fighting to impose their ideas, not accepting, not even the peaceful coexistence of similar ideals, races sisters.

The Holy Book and the Prophets, with their messages distorted by religious leaders of unbalanced minds condemn any initiative to progress.

The spiritual delay is hallmark of compliance with "archaic laws of Ayatollahs" as well as the primitivism in which live with different prejudices is practice of faith of theirs. **Blindly following the dictates of the sacred books, this is the greatest condemnation for their spirits in spiritual delay.**

These reactionary religious laws not only impede an individual or a community to progress, also countries and entire nations unable to progress moral and spiritually, because they believe serve the true God. They are deceived because their God is creation of sick minds of their "religious leaders".

"Religious leaders" have larger responsibility before the sidereal laws due to stagnation of their people"

Ramatis, 03/23/07.

02. Rebel souls, antagonistic groups

Dear disciples,

I greet you on behalf of the Light.

You are great little warriors.

To uncover the veil of all that occurred on Earth since its formation, and culminated at a time of intense negativity and violence that manifests in the matter, it is difficult to convert into words.

We can say that wild seeds were brought here. The rebel souls in their original planets, antagonistic groups who hated each other and made war, they were sent to a single planet in an attempt to that living in a different world, strange and wild, could mitigate the lower instincts not mastered in several incarnating cycles.

Exiled from several orbs, many spirits of violent and destructive nature arrived here. It was an attempt by the sidereal Engineers that gathered them in

one planet to drain their toxic load in a new incarnating cycle, through the suffering.

Nevertheless, this did not occur, because did no drain most of poison in their hearts during different stages and ages, when should develop their physical bodies and spirits.

Many of these spirits gathered at the edge of the abyss and keep under control several "mind control" on the physical and spiritual, very strong entangled in webs of connections with irreversible damage to the spirit.

They keep on and distilling its poison destroyer, pouring it on humanity that took advantage of the stock sent from above through the Avatars that with the powerful force of Light reincarnated on earth, lived in a physical body and worked with all forces to reduce the mesh of hatred, violence and disaffection that absorbed more and more the humanity.

Not even the sacrifice of Jesus neutralized most of that lower vibration. Humanity remains connected with negative forces, transforming the "Planetary Transition" and Apocalypse glimpsed through many famous visionaries into painful reality to humans.

Nobody suffers unnecessarily. All inexorably linked in this network and he, who is free, he must fight to remain free from the chains of enslaved network of evil that involved the humanity.

At this time, the automatism is necessary in incarnations, and the detonators of the doomsday have been activated. No more going back and prevent disasters, the gnashing of teeth and cries hallucinating, as humans, only in time of pain, they elevate the eyes to the High, and when the pain eases again throw themselves into the abyss of errors.

Only after the "movement of the Earth's axis" occur the necessary cleanness to ensure the renewal of the Earth and new humanity, no more by the seeds of hatred and disaffection. On the contrary, will not be allowed exceed a minimum quota of negative vibration in order to stay in the Earth of Regeneration. The humanity will be dispersed in several planets, separately, to eliminate the toxic load kept active, for thousands of cycles.

The moments in the matter are insignificant. It is living in the spiritual plane that hatred keeps active for many millennia. When incarnating in matter, the blessing of forgetfulness brings the opportunity to retake the path abandoned. Nevertheless, the majority does not use this chance. These spirits in the spiritual plead forgetfulness and make promises of progress and change, but when dipped in the meat, let once again, the bestial instinct dominate.

This way, comes the end of the humanity on earth

Margarida: Now we understand the reason for so much rebellion, hatred and destruction on earth.

Ramatis: Our brief explanation can answer some of your questions.

We know of your suffering in the matter, but it is not the time yet to abandon the fight on Earth.

M: Thanks brother. Bless our humble Group!

R: Little Group, we rely on your strength and faith to continue revealing the truths that can free many people, even if the majority disagrees.

You are vehicles of Light. Remain united, confident and never renounce Christ, because if your faith is not strong, you will renounce Him again.

I greet you in name of the Light.

03. Eternity has no end

After reincarnating on earth, various antagonistic races that, in their planets of origin faced each other, here, they were grouped by affinity and vibration, and yet have continued in confronts.

Vain attempts were made to mix them with the genes that were magnetically separated.

Experienced Spirits came down to live with the people, by word and actions seeking to decrease such savagery, but as love and hate irrationally, only incite more and fights and antagonism.

They do not recognize Jesus as the Promised One announced by the prophets that worship and still await the coming of the Promised Messiah.

When suffer very much in collective rescues, become more selective and with preconceptions.

Jews, Muslims, Semitic, Shiites and others are "Sparks of Light" inevitably, toward the Creator. When these souls remove their lens that distorts their vision, quickly find the path of transformation. Nevertheless, the lens is thick and deformed by the other view of beings of the creation and of His Creator.

Until that vision becomes real and clearly, forcefully, will travel the worlds of exile for various planetary cycles needed for the improvement of individuals and communities, until they find the tone vibrating higher, which is conducive to living in harmony and peace, to achieve the transformation and allow the light shines in their souls, without deformation.

Eternity has no end!

At the end of the cycle, the hatred and wars are increasing among antagonistic races.

The Beast increases its strength, but Jesus walks with you.

Ramatis, 03/02/2007

04. Keep alert the mind

Thousands of indebt creatures rescue their karma in very poor countries, in rudimentary and primitive way of living. This way, they repay their debts to the neighbor.

Even dipped in meet, in blessed forgetfulness, the hatred vibrates in their inferior souls. Feelings of hatred cross barriers of the infinite, and even living in poverty and misery, they seek subdue other suffering creatures. They are deep roots of hatred that subdue the creatures, and even in the worst situations, expresses feelings remained in their souls.

They provoke the worst social contrasts. The richest exploits the poorest provoking them diseases, abandonment and ruin.

Even born black and poor in an underdeveloped country does not wake the souls immersed in hatred and quarrels, any fraternal feeling collectively. If they survive the misery and get to develop intellectually, the hate will incite them to subdue and exploit crowds.

They spend precious time seeking temporal power to exploit crowds. The tyrants of all times abused of the transitional power, often slaughtering crowds that dominate.

The antagonistic communities on earth fail in spiritual purifying and still face fratricidal wars in bloody battlefields.

They spread storms unimaginable to the human mind.

If you think that suffer too much in the matter who hates each other, you ignore the real meaning of suffering. Nothing is bitter than awaken their consciences which recognize as responsible for successive falls. Crying, they beg relief to remorse, through the forgetfulness in the matter and regenerating the pain, returning to the abandoned road

Until then, how many storms will cause even before the awakening? Only the Father knows, and in him who everything can, is our future.

Sisters, persist in Goodness, in supporting the bestial attacks, keeping vigilant your minds, words and actions, so that you go all the way. If the planning was another, and so many committed to the Hosts of Light gave up the work, he, who remains must wear the armor of faith and follow Christ.

Bear in mind that everyone should serve, carrying his cross, without laments. As you advance, the cross becomes lighter, because there are many Cyrenans to help you on the walk.

May the Light guide us!

Ramatis, 03/02/07

05. Jesus, Light-Power sustains Life on Earth

Many communities of various degrees of evolution, in several dimensions in the astral plane, prepared to incarnate, at the same time Jesus incarnated on earth.

They were souls psychologically ready to awaken their consciences and, that in contact to the great strength of the Nazarene should unchain their psychic power to the Light.

All of you were embodied in that time, **even if only some were part of the antagonistic root-race.**

Beings from all over the world wanted incarnate at the same time that Jesus, but were carefully selected the spirits to incarnate in those days.

Even people prone to acceleration in awakening and spiritual ascension, after death on Golgotha, of the Divine Emissary, with fear and doubt, many of those people resumed their previous position and did not take the opportunity to accelerate the spiritual progress.

The leftists of Christ belonging to the antagonistic races that keep the flame of discord, most still going on by the "Abyss" in inhumane conditions, through the lands between the two worlds, still hopeful to destroy the indestructible force of Christ.

They keep flaming the fire of hatred, religious and race prejudice. Drag the crowds to the conflict, sowing discord and violence among other brothers.

Religious fanaticism is your weapon of control over the crowds.

They do not accept the humble presence of Christ, as Unsurpassed Strength and Light of Life.

They keep rooted in hatred, leading the crowds to blood confrontation, where the blood and lymph of life are abundantly poured on earth.

Jesus, meek and humble is the powerful force of infinite love for all the brothers of humanity. His sublime Love is the Force that transforms. Light that enlightens and sustains life on Earth.

Ramatis, 03/09/07

06. Blood and fear, food of bestial beings

Birth and death, life after life and man ignores his immortal soul. Act in the matter, as if he had great supernatural powers to guarantee eternity in the matter. The proud and materialistic ones, especially, taking the posture of superman, slaughtering those who basely tare overwhelmed by their temporal power.

The primary feelings crystallized in the soul requires long time to dissolve, therefore, they cannot be removed abruptly, and must undergo gradually transformation, if the person wants.

The antagonistic races facing the Earth, in fact, they do not want consciously to appease their hearts. They feed hatred through generations, bound by cultural traditions that keep the flame of hatred and prejudice.

The tragedy of Romeo and Juliet not abated hatred between the families, instead perpetuated disagreements.

In the construction of humanity, the human protagonists, mostly rebels and undisciplined could not take advantage of the emergence of "great leaders" Nevertheless, followed blindly and cowardly leaders devoid of love, which associated to their souls their souls.

The conduct of life on earth is possible because a Superior Power, and human beings, even recognizing and honoring that force, they do not follow it and delay their spiritual growth.

There is inferior desire to shed the brother's blood to feed the "vampires of the shadows," that incite more and more riots and wars to satiate them. **The shedding of blood vitiates who practices and begins act instinctively.** It does not matter the level of the people on earth, incarnate, but while giving flow to lower instincts, is inevitably driven by the "beasts" to shed the blood of the brother of humanity.

Look at the world right now. Blood and fear are the favorite meals of the beasts. The barbaric crimes destroy peoples, and the most enlightened by the Gospel are terrified before the barbarism of "End of times."

Whenever the Greatest Nations face each other in the physical plane, or a powerful nation invades another weaker, it is because already finished in the invisible plane, all attempts of Light to avoid confrontation on the matter. If fratricidal wars occur is because the man, despite fears the light, feels satisfied with the Shadows.

The religion that blesses the deadly gun is not the religion of Christ, but the Army of Moloch that treacherously deceive men. Nevertheless, the conscience is free to follow any path and humanity has been choosing the dark paths that perpetuate hatred and make wars.

Jesus Christ was born in Palestine, not perchance. He was born within the more violent, dissident and ferocious region to reduce the impacts of violence that would culminate in more negative and destructive actions against the humanity of "end of times."

If Master Jesus had not disseminated His Words in Palestine, the massacres today would not occur because those brothers, since long time would have been destroyed, by themselves or by other beings, always driven by shadows of Abysmal regions.

Great evolved Being engaged with Christ, for several times, were born there, in order to lead them to another direction less violent for those communities, but all failed, because the roots of evil grew dangerously in the hearts of antagonistic communities.

There is no more time to stop the evil controlling the humanity at this stage. Only in exile, the creatures may change themselves and give up the revenges invading them the soul.

Many people on Earth who have already achieved a degree of awakening, they believe that only through positive thoughts and collective prayers may reverse the chaos of “end of times”. Perhaps this could have been possible if most of humanity practiced Gospel of Jesus. Nevertheless, nowadays, only a small number of creatures believes and actively works to free the humanity and planet, from shadows.

It is not enough edifying thoughts sent to suffering ones, but effective actions and, above all, the practice of unconditional Lessons of Jesus, of love and pardon.

The timer shows that you are at the doors of the Earth’s vertical axis and the end of "Empire of Shadows." Many of you would like to know about this “End of times,” but you are not prepared yet, even to know of yourselves.

To you of limited mind, the destruction is approaching the end, however, for us; it represents the beginning of New Age of Light.

The "Antagonistic Races" determine important manifestation of the shadows, because facilitate their insidious emanations spread over the surface of the earth.

Ramatis, 03/09/07

07. They inhabit the Planet of Jesus and not recognize Him!

In an arid land with abundant minerals, (like petroleum), the creatures have to fight against the weather.

The despotic minds of the "drivers of souls" demand of the community subservience, obedience, almost enslavement with almost primitive Laws, Scientific delay and abuse of power.

There are severe punishments for small errors.

Those rebel spirits from “antagonistic races” were grouped in these places and conditions, through the difficulties to unite in favor of communities and development. However, failed to overcome the differences in overall benefit and came to the 21st century in full delay spiritual and technological.

Their minds are crystallized in reminiscences of hatred brought from their planets of origin. Unable to set the start point, the source of separation, they think the hatred came from Prophets; however, the hatred began long before they landed on Earth. These spirits are fallen, exiled from distant planets.

They used to hate one another and the addiction is so rooted in the soul, they cannot stop it. After sending continuous thoughts of revenge and apartheid, they created so much hate among the most hardened souls that, today, seduced by the “Darkness” became suicide bombs, driven by the folly and madness to seek the salvation of their souls, through the enemy’s blood.

Their minds stopped in a distant past fed on religious fanaticism, through the allegories of enslavement, with paradisiacal heaven and eternal hell, like house of horrors for everyone who does not blindly follows their dictates.

The brothers cannot liberate their minds of the fetish priests of the Ayatollahs. They will be spread out over different planets, so that the negative forces that dominate them are weakened and then, they activate the thoughts in new direction.

They inhabit the Planet of Jesus, and do not recognize Him, as Force of Love and the only Path of renewal.

Ramatis, 03/16/07.

08. Negative thoughts and feelings created violent form-thought

Near to the "end of the planetary cycle", the negative astrological influences, the presence of the Intruder Planet and insidious vibrations of the "Beast" becomes more intolerant the coexistence of antagonistic races. **It attracts to itself other dominant nations, hungry for power, able to dominate any nation on Earth, through the wars.**

The inferior thoughts and feelings issued for thousands of years, created above those people a violent "form-thought" of lower vibrations, which is continuously fed, making impossible any attitude of the Hosts of Light.

That "form-thought" has generated a strong negative magnetic field, which keeps the chains of spiritual and material delay of those people, attracting the eyes of pray of belligerent nations, and no more will be in balance at this time in which you live.

Neither Jesus, with His Special Power of Love awakened their consciences. Moreover, no one else will do it. If it remains, as a nation is due the Master's Positive over there to prevent the Negative Forces able to destroy them completely sweeping the planet

On Earth renewed, no trace of their presence will remain; even the vibrant echoes of their negative feelings follow them towards exile.

At this stage, in which you live, the floodgates of balance were broken, and the co-existence even with superficial tolerance ceases to exist. **Leaders who acted with an iron hand to contain excessive violence, no longer exist on the matter and, without a minimum force to control their murderous instincts, fight and destroy each other daily, until the complete extermination of some more violent races.**

There is no injustice of God, because the chances offered by the Father are equal for all, there was a willful refusal for their spirits to join the Light of Progress. Again, they will be exiled.

Visiting the Middle East, we have seen a suffering and tearful, but faithful to religious teachings, without questioning or rebellion to follow their dictates. Their faith in following the strict religious laws is sincere and is precisely the blind and fanatical faith that, again, put them in evolutionary disadvantage. As immortal spirits, remain parked in lower regions, unable to advance to other planets in better conditions.

They go to exile, with the same ideals that arrived here. Few brothers of this sectarian matrix won evolutionary barriers; and they work tirelessly for the liberation of their people under the yoke of low vibration feelings.

Jesus takes care of all, unconditionally, however Arabs (Muslims) and Jews did not accept the Divine Master Jesus.

Ramatis, 03/23/07

09. Dominators and dominated take turns in the matter

The network to which we refer is the intricate network of tangled hatred connecting one person to another, liking entire communities, and these to human beings from abysmal regions.

Ties of hatred kept in interdependence of inferior and bestial feelings, hardly will be broken still in this planetary cycle.

Dominators and dominants take turns in the physical and spiritual plane; where nourish and sustain all perfidious net that keeps them connected for thousands of years. They are so connected with lower vibrations to survive that, few ones who wake up and try to avoid that negative force; they must exert strength of will and faith, so that the shadows do not drag them again.

The constant issue of hatred and desire of revenge keep active the negative vibration.

Those brothers into similar groups will be transferred to exile, in different planets.

Sisters, prepare for other storms.

Peace is with you!

Ramatis

10. Slaves of fanatic religions

Throughout the world, the evil dares subdue human minds and hearts.

In antagonistic races like Jews and Muslims, the hatred passes from generation to generation through the wildest groups. There was no deviation of negative soul or vampirism among them. They are negative souls that do not allow changing their destination.

They are greedy beings and, since the beginning of modern centuries were contaminated by "Darkness" and manipulated by the "Beast." They lost the control of inner actions and direction of their lives. The death squads have gained strength. The fanatical terrorists have established schools, which recruit children to form citizens of apartheid and full of hate.

They are sailing in rough seas, in moonless night and the rudder drift.

No more, discern which "Lord" serve. Since long time, their words of their preferential Deity mechanically repeated lost the meaning, because of hatred, domain of power and imposition of ideas have occupied time and mind of theirs. The heart is numbed for feelings superior, nationalist or global.

They are slaves of fanatic religions imposing them rudimentary life and, require their blood. They arrive at doors of "planetary transition" in total control of negative forces, despite the religion control their lives.

They ignore the "higher vibrations" that could tame their rebel spirits and lead them to goodness and universal love able to free their immortal spirit from revengeful and cruel God.

They follow the beast that encourages their lower feelings and vile intentions against the brothers of noble ideals.

Deluded follow to exile.

One day, unavoidably, will find the Light of Progress.

Eternity has no end, just a planetary cycle is finishing. The followers of the Beast may inhabit another planet similar or inferior this one, as part of billions and billions of planets of the Father's Infinite Universe.

Blessed be the Force of Light! Blessed be Jesus!

Arimathea, 04/13/007.

11. Jesus decides our future

The Beast easily has interfered on the antagonistic races. They bring inwardly the hatred that intoxicates each cell of their souls. The Prophets who sought comfort them, and divert their minds from negative vibrations, failed to remove the fixed idea that hypnotically, keeps active the "flame of hatred.

The Religious Leaders also hypnotized by Evil, feed prejudice, apartheid, hateful feuds and bloody confronts.

They will be lost in eternity, in search of evolution.

They go to exile, in various planets so that, separated, repair the soul immersed long time in imbalanced vibrations.

Their spiritual constitution is committed, whereas the interior light cannot expand. They need of millenarian purification until are ready to follow the Law of Evolution, learning love and forgiveness.

The Beast, deeply committed with the Creature's fragile and complex psychic field, which has infected and made imbalanced, it will follow so long dark and cruel way of regeneration. The eternity waits it.

Jesus is the Light to comfort the Beast which future depends on Him.

Andrew, Peter's brother, 06/22/07.

12. Jesus is always with us

Once, we were happy in the Presence of the Master. Great sadness overcame us, before his tragic death because, in our soul still pure, did not understand why so much human wickedness.

Under His sweet presence, we longed for sweet communion with the Highest Spheres, and involved in His power, we wandered the streets of towns or dusty roads, uncomfortable, with little food, but happy to be with Him.

We could not imagine even the "dark force" that incited the unsuspecting people to destroy the Source of Love manifested in the flesh.

It was a great shock to our souls.

Even today, His sublime lessons issued by His sweet and gentle Verb are recorded in our souls: **"love God above all things and the neighbor as yourself."**

How should we forgive our executioners? We asked. Even frightened to occur with us, the same suffering and torture, never have we hated or rebelled, because, despite His physical absence, He was always with us to strengthen us in that hour of supreme anguish.

Nowadays, we understand that great "antagonistic force" that disturbed and manipulated the people, as if were puppets, it is the Power of Darkness hidden and subverted as love fed on disorder and rebellion of creatures.

That "antagonistic force" that manipulated crowds against the Being of Light, Christ, continued inciting the people against the Divine Laws and, through the human society, has been touring the millennia,

building dark regions to the delight of their followers, and torment of enemies.

That creature, thirsty for blood shed and chaos, sooner will lose its power, because the Divine Law governs the earth and throws it away from this planet.

Rooted in a large extension of the East, that creature continues to influence the people in that region. Its negative domain spreads on earth, especially on those people with similar vibrations.

In the midst of people that, since exile have been fighting hardly, identified the point where to construct its empire. Settled down, it has been spreading its corrosive and destructive poison hindering the Forces of Goodness, to influence positively the creatures that easily answer its appeal.

Its domain occurs through the “flame of hatred” feeding brothers of similar races and cultures, leading them over incarnations to fratricidal battles. The hatred and the blood shed are ingredients used to enslave the people.

At this apocalyptic time, we come to meet you, Beast, to lead you to regeneration.

Do not think you, Beast, will inhabit in another planet to suck the vital energy of creatures and dominate their hearts and minds. No longer will you interfere against the Light that involves you, even if you disagree. Hereafter, you have your forces and actions weakened. The human soul is already corrupted, and independently of your presence, rejoices in moral and spiritual variances. Many will follow you, no more to enslave other brothers, but will be subdued by force of time on planet as dry as your heart.

Unless you are pitied of yourself, no one can do it for you. The Divine Law and the Law of Cause and Effect drag you to exile.

On that hour, the Apostles of Christ, as arms of God help us and, we throw you away from the planet that deserves to get rid of the cancer that you are. Our weapon is the Love of Christ and your strength no longer surprises us, now; you will be surprised by us.

Go ahead, brothers, in the name of Jesus Christ! Let us free our Earth from the yoke of darkness.

In those days, all followers of Jesus are on earth sending vibrations, interlacing the hands in prayers and fights, through the restoration and liberation of the earth and its primitive and foolish humanity, from the yoke of evil.

Those who sincerely love the Lord Jesus never have been away from the planet, and from the complex connections among human creatures. We always act to awaken the souls from mistakes, illusion and wrong path. Unfortunately, this humanity continues worshipping Barabbas and crucifies the Master.

Jesus is always with us.

Hail Christ!

Andre, (Peters' brother), 06/22/07.

13. Die in the matter and awaken in exile

Do not think God abandons the people of the East.

Many Beings of Light approach the brothers who are killing each other, inconsistently, immersed in the lower vibrations.

Hypnotized by feelings of hatred and prejudice are closed to the sweetest vibrations around them.

A small number of souls in that arid region can feel the vibrations of light touching their hearts and messengers of the Father guiding them.

Most of creatures arrested and magnetized to each other by strong ties of lower vibration, will die in the matter and awaken in exile.

We would like that people of the East that felt the Sublime Power of Love in human form, had awakened and regenerated, but eternity is something immeasurable.

After some planetary cycles, those brothers will try to return to Earth of Regeneration, but perhaps at that time, the Earth will be already Earth of Evolution.

The future belongs to the Father who knows all and in to Him, we give our brothers lost in darkness of their inferior feelings. Only in His arms of pure love, they will find the strength to overcome inner afflictions and then, return to the Father's House, as regretted prodigal son.

Lord, my God, guide these brothers!

Hail, Jesus!

Peter, the Apostle, 07/20/07.

CHAPTER 3 – WAR IN LEBANON/2006, (INVISIBLE PLANE)

All of my life on earth, together with evolved spirits, they taught me the essence of progress: humility. To serve is love without words.

To aid is protect with love.

Study is to recognize itself as limited and lacking in love.

Work is act with conscience in the direction of progress. Think and change.

Chico Xavier

01. Greeting our team GESH

Peace is with you!
Your swords are set for combat.
Go fighting fearless to free the world from the yoke of the Beast.
I am with you; I am in Heaven guiding all of you.

Commander Ashtar Sheram, 08/19/06

02. I am with you

You come opening tracks of light amidst of darkness and conquering Superior Beings removing of your astral bodies, the thick, sticky layer that keeps you unable to fly higher.

You have also conquered fierce enemies.

Go confident, because I am always with you. I am the Flame of Love and I will bring you to My Heart.

Nothing and nobody will stop you, while acting in my name.

Free your brothers and children from the darkness.

I am the Love. I am in you. You are in me.

Sananda, 08/19/06.

03. Guidance for our performance

You will be in the battlefields for 30 days. Retake your diet. You will compose two groups fighting. Reduce stress in daily fights; intensifying it in next battles.

May Faith guide you! Facts and strange events, which appear, must be shared properly.

The group of "Infernal Beings" daring to stop the Workers of Light must be defeated. You are called for a dangerous task. It is true that, better will be the warrior who succumbs in battle, holding up the "sword of light." Everyone who passes away to spiritual world; they will be rescued to be restored in the spiritual plane.

Margarida: *My brother, do you mean that different work, which our Sister noticed last Saturday, is the same you are explaining now?*

Yuri: Yes, during the month (August of 2006) of your calendar, you will be in astral travel, not as usual, but a different job, because the density required in the battlefield must be similar that in the material plane. Thus, the technique of enfoldment should ensure the presence of your bodies in two places at once, with maximum load of vital energy and will run risk in that confrontation you are going to participate.

M: Will be called other Groups around the world?

Y: All who are able to face the bad creatures; but unfortunately, we only count on few terrestrial warriors, and even those called, we do not know how will react in the face of negative energies contained in that battle.

Q: Is it the final battle?

Y: Not yet. The Beast, as a warning of its existence, prepared those beings emerged by paths opened by bombs and other explosions of war. It is message of its cruel purposes to terrorize us and destroy everything as obstacle to its empire of darkness.

From High spheres, the Planetary Christ follows up everything and hears creatures connected with divine forces. He prepares the warriors, the place and, again, radiates forces of Light for all humanity on Earth.

Although the majority disagrees with us, we go ahead fighting.

M: Thank God!

Y: The arrangements already started. From your side, any annoyance is only detail, compared to the task you must perform. Avoid wasting energy at home or at work. Cultivate peace in your intimate, the atmosphere of your fight. Any vibration less worthy issued will strengthen the enemy who can reach you.

Ingest liquid, at least 3 liters a day, healthy and allow the circulation of vital energies in your body.

That stage is very important. Every day, you will be monitored in elimination of toxins, which are many, and, if accumulated by the lack of fluid in the body, cause damage to the physic bodies.

It not time yet for you pass away to spiritual Plane. Thus, take care of your bodies, as important tools of work on earth.

As I said, food is only to strengthen the soul, not the body. All traces of animals should be eliminated from next week (August 1, 2006).

Drugs of all kinds, representing chemical substances unknown by the body, also should be suspended or avoided.

Reinforce the daily contact with edifying energies, through reading, edifying conversation and mainly work in favor of others. Work hard is essential for spiritual redemption and victory over the Darkness.

After fighting, we meet you again, bringing the second stage of work.

I am at disposal for your questions.

M: Master, could you say about the trips scheduled to launch the book?

Y: After finishing the combats, I will let you know. As I said, the technique is extremely subtle and, through this period carefully monitored, you should avoid excessive efforts, including trips and exchange with other Groups with dense vibrations. Those anxious for knowledge, even unconsciously, will intend suck so much the salutary energies.

Send your energies to Beings of Light to face “the children of the Beast” from abysmal regions thirsty for human blood, suffering and fear.

As we said, after the battles, we will meet you again, bringing the second part of labor, about the publication of this book and others.

M: Brother, are we working satisfactorily?

Y: Yes, we should not have called you to this strong and final battle, Light versus darkness, which option is the victory, because with us is the Power of Love of the Master Jesus, the Divine Creator of our dear Planet Earth.

M: Thank, Brother, we are very happy to perform, within our possibilities and vibrational level we have now, the tasks required.

May God bless us and, whenever possible, come to meet us!

Y: Finally, you should undergo spiritual treatment and preparation at this Spiritist Center, only once, at the beginning of the fights next week.

May Jesus, infinitely good and fair guide us!

I leave you in peace. We remain with you.

Yuri, 07/27/06

04. The Tunnel

I saw our group arriving to work in our Spiritist Center, as was on Friday. From a room in GESH, in single line, we went downstairs toward the basement. It was at night when we left our physical bodies.

We arrived at some place, perhaps in Lebanon in war, where had many injured people and ruin. Our team aided many of disembodied spirits. I think this will be our next work, during the diet period. I saw some papers on a table, perhaps symbolizing a new book.

In new meditation, I saw our group, at night, returning to Spiritist Center GESH, as it usual on Fridays. We entered quietly to perform our activities, and while waiting the other companions to complete the group, Shama Hare told us that enemies of "Light" thought we were in our habitual meetings. They had no idea what was going on.

I asked him, who built the tunnel and he showed me starships of the Ashtar Sheram Command. Our bothers of stars used advanced techniques to built tunnel linking from Spiritual Center to East, in astral plane. The entire tunnel is wrapped with a special substance to make it invisible to our adversaries.

He showed me a panoramic view where I could see the tunnel connecting Vitoria to Lebanon. Downstairs, at the end we found cars or wagons similar the fastest subways.

The subway led us as far as another place and then we went until a room of an old building destroyed by bombing. The place was prepared for the job. The room also seemed covered with same substance to let it invisible. The place chosen seems abandoned by offering risk to people and no one approaches there.

An "emergency" was placed to collect all the spirits that could be rescued, in a discreet manner.

Parallel to the work of transfer the disembodied spirits, of people in war, we fight too. Superior Brothers planned the battles, as follows:

When there are a number of beasts on the roads or portals opened by bombing, Beings of Light surround them in an area transformed in a battlefield. When a high density is allowed to the Soldiers of Light, the fight begins. At meantime, our Group gives up the assistance and begins fighting.

After returning our Spiritist House, some patients are brought on stretchers on the wagons, like cabins, not too many. A team of the House was already prepared responsible to receive them follow them, while we restored our energies. We returned to our physical bodies sleeping in our homes.

I asked why had not larger the tunnel for better transport of spirits. Shama Hare explained that all that work was secret for not draw the attention of negative spirits of Darkness.

From the top, I saw the infinite ocean and a light, almost imperceptible across the continents. It was the tunnel, our way.

Clairvoyance, 08/03/06.

05. Working in the astral plane of Lebanon

Clairvoyance: *I see an entire city, houses and buildings that suddenly are bombed and turned into ruins. Smoke floods everything. Horror! Screams!*

The bestial beings come to collect some souls and put them in a cage.

After they went away, we see us coming and collecting other spirits ignored by the dark beings. They were under ruins of homes and buildings.

Hunters from darkness looked for other spirits. They saw us carrying the wounded, but thought we were embodied spirits and went away.

August 5, 2006

06. Still on War in Lebanon

Know that the tasks of much activity require mental effort from you to fulfill the actions established by the High.

We are almost concluding our work with Christ, in that region in war, but the short time we have, it requires same seriousness and care that the previous one.

This evening, the Medical staff of the House change devices implanted in your body so that you face the fights and assistance properly. We recommend a special bath to harmonize your spiritual and physical bodies.

After the combats and activities of assistance, considering the reality in which you live as incarnate spirits, we recommend an extra effort to remain in your place, whereas the task is very dangerous and requires from us dedication, sacrifice and faith in Christ.

Even though, your material minds cannot reach and understand yet, in your minds, the Divine Spark vibrates with next work, and inwardly, you know of the serious time and importance of task we are going to fulfill.

Keep calm minds. You are always protected until the end of this month, of your calendar. It also ends the intensive collective work on earth.

When your bodies return daily routine, you also return ordinary life in food, travel to other places and daily contact. When another task comes, again, we will let you know.

Tonight, the Spiritual Medical Team will assist you. You should fall asleep before midnight to receive them. They will assist you with spare parts in your bodies and renewal of energies. Then, from tomorrow, you can restart fighting and fulfilling the assistance work until the end of this month. After this, you are temporarily free from the diet.

Margarida: I wonder if will have enough material to another book, and if this work on Lebanon continues.

Shama Hare: This work commanded by Master continues.

Margarida: thank you. What could you tell us about the trip of our companion?

SH: We already presented the guidance at the beginning of the work. We only increase that, it for short time required from the High for concentration of energies and work in favor of humanity. Yet, we remain with you, as messengers of Superior Spirituality, guiding you, sure that you are free to make choices.

We must inform you about this complex task, which requires individual and collective efforts. Up to now, everything runs well and so we hope all the way, because any interference could be dangerous for you, as embodied spirits.

We know the reality of life in the matter and the difficulties you are facing through the anonymous service to others. Even so, the difficulties we shall face are minor, compared with expected results and obstacles to overcome in the spiritual plane. We count on you, but we respect the freedom our Father gave us.

M: Brother, what was the impact of the book "supplicant Hands" in the spiritual plane?

SH: The strength of the work provided much comfort to spirits prisoners that deeply touched by lectures and other talks, never had they imagined to be unveiled all over the world, that reality in filthy cells. As bath light, these creatures receive the energy and of the work and in their hearts like fresh hopes for a future human dignity not as a dream, but reality.

The workers are very happy, after concluding one more task requested by the High. The higher spheres spill on us blessings that strengthen us for purposes of good, love, and charity. Finally, those engaged to the work feel renewed and happy.

M: Thanks be to God

SH: We hope Jesus infinitely good and fair remain with us.

M: thanks brothers for your fraternal presence. Glad to see you!

Shama Hare, 08/18/06

07. Concluding the task in Lebanon

Clairvoyance: I see a group of warriors coming from the battlefield. They have the cloths dirty, torn and have their arsenal lowered. I received the following message:

Warriors return to your places. The return was very tired. The lack of vital energy is evident after long combat. Even so tired, they are happy to assure accomplished the Purposes of Good, through their hands.

Immense spiritual peace cures wounds, anesthetizing the results of the body-to-body combat.

Mind and heart equally happy, return their daily routine, men and women that temporarily with blessed armor of courage and love, took their positions in the army of Christ where served unconditionally.

Now, they have time enough to recover themselves, after facing rebel spirits and assisting suffering beings.

New tasks come, as soon as you are all right again.

Blessed are those selected for the Army of Christ!

Blessed is the Love that teaches us to serve!

Greetings,

Ramatis and Shama Hare, 09/01/06.

CHAPTER 4 – EXILE

The planetary exile occurs based on automatic Law of affinity, and even among the beings parked in evil, daring to subdue the planet and humanity. Even who has dominated the majority of humanity, when the Planet reaches its superior dimension, through the merits of evolution, executioners and victims of darkness are vibrationally thrown away, want or not.

They are thrown, united or not, to planets of vibration compatible with their vibrations.

Allan Kardec, 08/30/08.

01. Born, grow, die, reborn, always progressing, this is the Law

Countless opportunities of incarnations have the spirit to progress, but very often refuses to follow the planet when this reaches the Law of Progress.

The spirit then will incarnate in another planet.

When rebel souls voluntarily keeps in delay incompatible with development reached by the planet where inhabits, the same Law that governs the entire Universe and creatures, send that soul to planet compatible with his/her degree of evolution

The Universal Laws, Law of the Creator are legible and must be practiced by all creatures.

Even so, humans often invest on power without have merit, and ignores the laws created for growth. Thus, park in inferior degree until decide to take the right road. My Brothers! "Love God above all things and your neighbor as yourself." This is the Law.

Allan Kardec, 06/29/07

02. You are closer a new dimension

On the horizon unveils a new dawn!

Few beings agree about the end of cycle, and minor is aware of few hours they still have.

There is an intense movement of incarnating and disincarnating beings.

The disembodied spirits concluded the term offered by Divine Providence for the elementary school and the scores dictated by their actions will allow them live New Day on earth, or starting a new planetary cycle, in exile.

New incarnating beings face the last examination. They incarnate anxious for renewal. Exposed to the vicissitudes in the matter, they must exert effort to ensure a good score at the end of school life.

Countless candidates seek reincarnation, but are limited. In Caesar's world, better are the opportunities of material improvement than spiritually.

The Sidereal Technique, gradually, has been selecting spirits unable to incarnate on earth, and send them to preparation and exile.

Souls bound to compulsory exile, afterlife, they are placed at certain areas, where the sidereal technicians prepare them to materialization of bodies. Later, are transferred to psychosphere of new orb, where will reincarnate, for cycles necessary.

Candidates to reincarnation gradually increase, because of difficulties of finding couples able to welcome spirits of lower vibration and tormented by secular vices.

At same intensity of incarnations and reincarnations, there are brothers "devoid of vibratory conditions" sent to incarnation and prepared to planetary exile.

The brothers of "abysmal areas" may suffer spiritual watchfulness in the astral plane where will live, without passing by chambers of deprogramming in the same astral plane. Their morphological and psychic conditions highly changed do no require intermediate reprogramming.

In proportion to the error, creatures answer for waste blessed opportunity to progress in the matter. Integrated to the global environment, they should strive to improve their indebt spirits reducing the karmic debts. Even so, they

neglect the laws that grant them the incarnation, by devaluing life and rooting even more to deviations in the journey.

All over the world, there are purgatorial zones, collectively, in the material plane, especially, in some countries and continents, where creatures in debt to the neighbor, whose acid remorse corrode their souls, they incarnate in forgetfulness in those regions to relieve the consciences. If suffers in the matter, worst are the purgatorial regions where the indebt beings must drain their toxins.

Men change places into "purgatorial areas," such as, fratricidal battles, awful points of torture, addictions, abortion clinics and, halls of cruel genetic experiments. These purgatorial points created by humans are increasing all over the world.

In lamentable spiritual condition is the humanity of new millennium!

Brothers, review your lives in this area, so that you keep vibrationally compatible with Jesus, because the selection occurs rapidly, you agree or not.

Christ's Army work hard in the invisible plane seeking the reorganization of the Planet that is reaching its "new dimension."

All creatures are invited to awaken and to have "ears to hear and eyes to see" the awakening of New Age.

Margarida: I ask him about the conclusion of the book.

Ramatis: It is impossible to disseminate the entire program at once. You receive drops of light, which you must join and turn them legible to other brothers.

Ramatis, 06/15/07.

03. Falls in search of shortcut

You arrived at beautiful young Planet Earth. Now you meet the Intruding Planet.

On earth, amidst of fights and suffering, the planet and humans reach the end of evolution.

Now, new dark ages of transformation, constructing a new being in arid planet.

Terrestrial brothers! Use your intelligence on the Creator who gives you physical body, life and house, to progress. See His Laws and practice them, to reduce your delay and sorrows.

If matter seduces you, take advantage of this short space of time, you still have, to practice the Divine Laws, Universal Laws, not abandoning the line of progress, since the fall, in searching for shortcut delay your steps for many planetary cycles.

You ought to aspire to the celestial planes, but the lust drives you to hellish places. You will be subjected to eternal ice ages, while worship the matter.

My Brothers, free yourselves, practicing love and you will see the splendor of Christ, the Redeemer.

A Gardner of the Space, 06/29/07.

04. Rebellion against Divine Laws no longer is allowed!

We greet you on behalf of God.

The Intruding Star acts strongly upon incarnate and disincarnate spirits. It expands the inferior "SELF" dominant in humans, and no longer disguises the hypocrisy. Thus, the masks fall easily, exposing their distorted faces by intemperance and vice, latent in their intimate

Thus, among humans spread lack of decency and morality and, their instincts no longer suffer any form of control or moral contention. **The intrinsic force exerted by the Intruding Planet disturbs the fragile men's will exposing them, daily, to attract "negative beings" also free from abysmal regions by the Intruding Star (Hercolubus).**

Hercolubus does not have very evolved inhabitants able to invade the Earth, as some visionaries imagine. It is a primitive planet, which aura of strong primitive magnetism touches deeply the creatures intimately, loosening their fragile resistance in order to give flow to primal instincts connected with Intruding Planet.

Even if your scientists did not agree yet, or simply ignore such strength, the Intruding Planet is already strongly liberating vicious instincts, latent in the creatures and, responsible for the chaos resulting from lack of control.

Scientist who judge themselves experts at high technology, environment, as if they were unique intelligent beings on earth, in fact, they know nothing, they are the most ignorant beings.

Any creature that has already wakened in itself, the discernment of the love to the neighbor, can recognize the delay of the humanity on earth. Your fights, quarrels and daily troubles to others, quickly reveal your spiritual inferiority.

That is the trademark of delayed people. To evolve, you must change the wild instincts into love to the neighbor. You are selected by vibrational degree and then, exiled.

The presence of the Intruding Planet impels you to remove the mask of hypocrisy, often against your will, but the pressure of the Intruding star is stronger than the will to continue hidden.

People on earth, for thousands of years, you have misusing precious opportunity to pay your debts with Divine Laws, but rather, you come increasing it largely, and reaches the end of time allowed to remain in this world. You may suffer too much into exile.

We have been following you toward your new home. God, the Creator sends His children to inhabit houses compatible with their moral and spiritual progress and, since they deserve inhabit in a better world.

What have you done to the planet offered you for your progress? You have only destroyed it with your greedy actions, and did many enemies among your brothers in humanity.

How would you be forgiven, if you refuses to forgive?

How could you want love, if you refused to love?

Why do you beg mercy to God, if you did not thing about His children?

The gnashing of teeth will be your inheritance, and the exile, your prize, as result of the iniquity practiced.

We sorry announce to you, humanity, that the presence of the Intruding Star revealed your true face completely deformed. The rebellion against the Divine Laws no longer is tolerated.

The planet opens its floodgates and throws away the aggressors. You wish peace to comfort your pains, which you cannot afford.

Blessed is the Earth as school, prison and hospital.
Now, the beautiful planet wants to become New Land.

Gardeners of the Universe, 06/29/07.

05. Imprisoned, sleeping or simply lethargic, came to new address

Clairvoyance: I saw the Medical Staff of GESJ taking care of our astral bodies at night. They exchanged the "armor" and gave us invigorating bath. Then, we entered in a room where was the Master Shama Hare who showed us a map with strategies about the combat. Next message:

In ancient times, edifying thoughts were formulated about the family organization on earth.

As you know, the fallen souls left their orbs, because, until the end of their planetary cycle had not understood about the unconditional love.

Imprisoned, sleeping or simply lethargic, were gathered and sent to new experiences in another world.

In fact, exile differs from evacuation. The Architects of the Space do not intend to throw into incarnating cycles, souls in need, without special programming for evolutionary journey. The Universal Law says that the Evolution occurs through wakening of conscience and responsibility on everything existent on earth.

Thus, no worker of evolved spiritual degree can neglect their responsibilities dictated by love to others, purified over millennia, leaving their brothers without spiritual learning.

Being this way, all exiled obtained through the Lords of Karma, opportunity to see their karmic registers analyzed, compared, researched and organized, so that, gradually, the spirits were gathered, as spiritual families.

After contact with them in the spiritual world then, began the purifying journey. So much work has been done in that intense period, when in the physical plane, the animal species still kept genetic constitution, the human embryo.

Strong conflicts confirmed them still carrying so much magnetic fluids of rebellion and dissatisfaction; therefore, those beings ignored the gratitude and still insisted in considering infamous their status, as prisoners of a new orb.

Rebel spirits who kept since that time, deep dissatisfaction that made arrive on earth without the recognition of the planet, which would be, from that moment on, their mother in the matter.

The body of flesh was forged from minerals of your orb. The new house-Planet became refuge and later school, been rejected by many, while others received as a new chance.

The Earth's physical configuration determined the territory for fallen souls, being many of the rural and inhospitable places to receive hardened and cold souls. In the first educational effort was the material toughness, the master of the man-monkey and only, gradually, recognizing to tame their rebellious and violent temper, humans began seeking pleasant places to live.

In fact, the entire planet has magnetic fluid sprayed by souls emerged from space. At the same time, the territory should receive a human group responsible for impregnating them with the fluidic energy that their psychophysics constitution forged over time.

Men belong to the Earth that created them. Even though, the material eyes cannot admire the umbilical connections between the earth and human beings, they exist and exert strong ethereal- magnetic influence on creatures, helping them in purification.

Ramatis, 08/19/06.

06. They lost the chance to inhabit the Earth Renewed

Since remote times, missionaries and prophets predicted the current dissolutions for this humanity of "end of times." Humans did not take advantage of opportunities offered by God Almighty to chance the events established and announced so far in advance.

In the astral plane, spirits free from material body, even those who promised to take the spiritual redemption, after reincarnating, the instincts cultivated for thousands of years began dominating them. Nowadays, they try more and more to satisfy their instincts and then, fail to take the path of progress.

Master Jesus and other Beings of Light came on earth in order to awaken most of humans already mindful of their vicissitudes and able to participate of Celestial Banquet. Even so, they preferred to follow the "Beast" to another planet compatible to their merit and vibration.

Yet, there are those who, inwardly, are able to awaken before the end then, deserve new chances in this planet.

Brother, if you are not among those able to remain in this Orb, struggle to deserve it, practicing the Gospel of Jesus, so that the suffering does reach you.

I leave you on the Peace of Jesus.

Joseph Arimathea, 04/13/07

07. We come in the name of Jesus and Master Ramatis

Those simple people who lived at that time of Jesus, embodied spirit, and felt deeply touched with His sublime words, no longer are on earth.

For that region where Jesus was born, lived and died, migrated many fallen spirits guided by good spirits.

There, they incarnated linked by millenarian spiritual ties gotten in planets from where they were exiled. They brought their wild roots to this planet, still in its formation.

After the arrival of Jesus in that area, other wild groups still came to purify their lower feelings in those regions full of edifying energies of the Lord Jesus, but did not absorb anything. Since then, began fighting, feeding apartheid and hatred.

Separately, they formed similar groups that still fight with each other

The strong antagonism reflected in the astral plane, attracting more and more, the beast that feeds itself with fury of lower feelings of those people.

The antagonist brothers no longer can break the uncontrolled violence spread disastrously.

They know that, without union of efforts, some of them will disappear.

Unfortunately, they know that is not possible to stop the uncontrolled power of hatred and revenge

The Sidereal Engineers and the Masters of the Great Universal White Fraternity answering for destiny of the earth, very often sent to those groups,

evolved souls to break them the hatred, but failed the attempts, because that ancient negative force built in that extensive region, no longer allows the presence of light.

Those responsible for the delay of those people go to exile.

The Beast (Dragon) and partners no more have chances to dominate negligent beings that will inhabit a dead world unable to avoid them the exile. There, for many planetary cycles, may drain their negative vibrations until beg for Mercy of the Father.

Poor fellows who still hurt other peoples, they are going to face unimaginable suffering. They had more opportunities than deserved to change themselves, and lost them.

Darkness and madness waits for them.

Jesus guides all with His infinite Love.

Jesus is the force that sustains us.

Jesus is Love and Light.

The Medium asks if he was Joseph Arimathea.

Answer: Yes, I am here in the name of your Master Ramatis and Jesus to share with you these words.

Brothers, the Power of God guide us.

Blessed be Jesus!

Joseph of Arimathea, 04/13/06.

08. The Flame of Jesus remains on the Middle East

In regions where is concentrated hatred, strife, conflict, revenge and war among brothers, the astral environment is suffocating for sensitive people.

In the Middle East was created in the astral plane "purgatory Cities", where inhabit "beasts" that feed on that environment, contaminated by bad feelings.

The bodies of incarnate spirits either tumble in the physical or astral plane, because their minds have created false paradises, where worshipped inexistent creatures.

After violent death, they, very often arrive at invisible plane, in terrified condition and become easy prey to creatures of darkness that require their blood and energy, as an offering.

Their minds ignore and are unprepared to avoid bestial attacks never imagined.

The rotten astral bodies multiply, because the creatures are unable to react before the awful scenes right against their spiritual eyes. They remain where have fallen and think to die on that hour.

Oh brothers that ignore they had not served the Creator, when were embodied spirits? They distilled hatred against the brothers. Wake up! They are puppets of shadows. Their "Priests and Spiritual Guides" feed their negative feelings and making them fragile, before the fury of Darkness.

The Christian Flame of the Master Jesus remains on, and the Middle East still exists due to its extraordinary Strength and Power. The Beast knows and spills even more its fury in an attempt to extinguish the flame that never goes out: the love of Jesus Christ for all.

The Middle East already punished by bad weather, it holds strong warriors, however, deceived in their honor. They think serve Allah, but remain

associated with Beast, deluded as their Lord, but aware of the negative feelings increasing in their hearts.

All follow, and many have followed for new exile. Their eternal souls can take the memory recorded, the iron and fire, hatred cultivated in their hearts against brothers of humanity. They will drain the toxic load in painful exile, until they are able to retake the road of progress.

How many planetary cycles will travel to wake? Only the Father knows and assists them lovingly forever.

Ariadne, (a friend of Venus) - 05/04/07.

09. They do not tolerate the idea of forgiveness

My Brothers,

I greet you on behalf of Light, Love and Peace.

The journey on earth is full of obstacles inherent to each creature or community to overcome them.

No human being is free from difficulties imposed by the karmic Law.

Unfortunately, the beings of "end times" have sought to stop the storms of atonement and tests, avoiding the pain that cures seeking only the pleasures and material goods. They only postpone and increase the storms they will face.

Many communities on earth seek to retake their ancestor's primitive culture, or create new methods incompatible with human intelligence, as a source of progress or selection of the strongest ones. They legalize criminal abortion, drugs that provoke vices mental disorders allowed, ingestion of physiological increments as method of beauty, cannibalism of discarded fetuses and other innovations. Everything exploited in name of progress, modernity, fetishism, narcissism, vanity of silly, decadent and immoral beings.

The exotic Muslim people remained closed to cultures of the East and West culture; therefore, in a vision of the religious fanatic, God must be worshiped by means of extreme sacrifice and renunciation.

Kept under strict fanatic discipline, unable to expand their mind and body in accordance with global development, were forced to direct their minds to the enemy of their God, of their cultures and prejudice. They encourage separatist feelings through hatred and strife of sects, thus externalizing the stagnant energy in their physical and spiritual bodies.

If those fanatic religious had invested on culture, music, Art in general, they had led the people, originally rebel souls, but of easy domination, to change their primary and disordered feelings, free from trappings and bellicose actions present in the world, nowadays.

They remained in primitive degrees of social-economical-spiritual evolution, since were encouraged in their decadent feelings.

Great guilt acquired the Ayatollahs and Religious Leaders that shaped them the collective character. Many planetary cycles will be necessary to restore the collective balance that have manipulated, until their spirits achieve balance and progress necessary.

Even though, in the spiritual plane, they recognize the worst conditions imposed upon crowds, under their responsibility, when reincarnated to new opportunities, as political-religious leaders of same people, failed due to inexperience of remaining faithful to the redeemer program or, because had

their steps broken by immoderate violence by their followers. No matter how, but has failed all attempts of peace and fraternity for those people.

Dominated by antagonistic feelings on races and religious sects, their spirits are equally conditioned to hate the brother of race and sect different. In a distant planet, they must renovate their minds from negative feelings imprinted in their rebel and fanatic souls.

At end of this planetary cycle, they dare to fight toward complete extermination.

They seduce the Antagonistic Forces to their bellicose and suicidal intentions, but do not tolerate any idea of forgiveness.

They are disturbed, whereas, only struggle to impose on others to follow sects and to worship obstinate "prophets," of remote times.

My brothers, Beings of Light want help the Middle East's people. They try to identify in each heart, the flickering flame of reason different of fanaticism, because will be selected into similar groups to different planets in order to restore their sick souls, as eternal souls.

Poverty and suffering will reach them along of great transition and, we read in their hearts that, the more pain, more rebelliousness and hatred, less chance to awaken them. They have hearts are immersed in hatred and prejudice, without space for forgiveness and love to the neighbor, other than those of his race.

They attract crowds of spirits, hungry for slag drained from their inferior feelings, strengthening the Beast's followers fed on hatred and distill the poison, which keep them attached to primal instincts of hatred and revenge.

Kings and queens of ancient times, as important bloody leaders tumble due to the power of hatred dominating their souls and so, they creep in either the material or invisible plane, dense and heavy by anti-Christ feelings cultivated.

In the Middle East, dark and decadent fields form their astral field. Castles and other medieval fortifications form cities in obscure regions.

Neither God nor Allah abandoned them. They simply do not know to pray, without worshipping two different Lords, God and Mammon.

Their criticism does not offend God almighty. Nevertheless, the inflexible Law of Karma destroys their instincts, sending them to appropriate correction in painful exile.

To fall again is inevitable and necessary to their rebel souls.

Jesus visits all with His Sublime Love, however many brothers are immersed in hate, and do not feel His sweet presence.

Ramatis, 06/08/07.

10. They will be exiled.

Humans ignore the immortal spirit. Along of incarnations attack each other, forget God as "support" in their minds.

Spurred by pain, fight back with hatred.

Immersed in abundance, the greed made them crazy.

Humans only seek material things and become slaves of wild instincts, due to lack of love.

"To each one according to his works and his labors," said Master Jesus.

In the global journey there are many spirits failed before the Superior Plane, because value the matter and neglect the appeals from the Spirit and

Superior Entities. They want material benefits and then, wake up in the spiritual world, prisoners of Beasts.

My brother, the planetary journey, for unwary ones, is close to the end. The Spaceship Earth throws away those who hurt it, and no more, return with filthy garments.

Jesus Christ calls for your wakening and change. Do not postpone more your progress. Remove the mask of inconsequence, and activate the dynamo of love, which is anxious to emerge in your heart.

Sooner you will be in exile, as new address, amidst of shady roads and wild animals. Those who refuse the Light, or feed the darkness, they will not have a happy future.

Only Jesus Christ is the winner. Love Him as He loves us.

Hail Jesus! Hail Master Ramatis!

Hercílio Maes, 08/19/06.

PART 2 - THE ABYSS

My brothers, forgive those who
offended you.

Forgive; we all need to be forgiven,
because at some stage of our existence, we
also hurt someone.

*“Love the Lord with all your heart and
your neighbor as yourself,”* said Jesus.

This humanity has been neglecting this
basic lesson for several existences.

Ranieri Matias (a Protecting Spirit of GESJ)

CHAPTER 1 – BEASTS DEVOID OF GOODNESS

... Torrents of catastrophic events are approaching the planet, a natural consequence of human actions against the nature.

Humans may feel the consequences of their non-human, bestial and irresponsible actions. They throw hate into atmosphere; rejoice in issuing low vibration enriching itself with pestilential emanation of pain of the brother. All the revelations sent were not only to awaken them. Only many catastrophes will interrupt their destructive actions

Earth ends in this dimension and the humanity will be exiled.

Andre Luis, 08/22/08

01. Beasts pursue missionaries of Christ

The hateful and distorted spirits from abysmal areas compose similar groups in communities, where inhabit hatred, disdain for life and violence.

Attracted by abundance of foods with low vibration, those spirits drag crowds, increasing more and more the hate and violence. Even cities of the lower astral, where inhabit imbalanced spirits, effective obsessors of embodied spirits, are devastated by uncontrollable gangsters from abysmal regions.

The imbalanced energy emanating from embodied spirits, as well as thoughts and actions of low vibration attract immediately the Beast where there is only damage to the planet and its humanity.

The hate is increasing and the contentions become bloody wars. The bellicose people activate again the flame of power, seeking the glory, through the enslavement of other peoples. They use the man's advanced technology to decimate people in the name of supposed high ideals of other nations.

They open craters in the astral plane, closer the Earth, where emerge the bestial creatures from abysmal regions, under the command of the Dragon, hungry for harmful energy to feed them.

They are magnetically attracted on surface of earth by human vibrations. If those creatures followed the Gospel of Jesus, never would feed the Beast.

Beasts are devoid of non-human feelings and, even the famous Dante Alighieri, who had been in abysmal regions, he dared describe.

In total disarray, thirsty or hungry for blood, they attack, in unnecessary revenge due their long stay in darkness.

Only the creatures humble in action and thoughts, will escape from direct action of beasts.

These beasts hunt the followers of Christ. Only those with sincere desire of self-renewal and, practicing the Gospel of Jesus will escape from pernicious vibrations. On the contrary, will be the Swords of Light of Jesus' Warriors to break their degrading actions on the embodied spirits.

My brothers, the abysmal regions will be emptied, and majority of embodied spirits will face some disaffection still existent there. If you are not evangelized, the beasts will drag you for tenacious suffering, still as embodied spirits.

They suck your energy and increase the violence, since they feed on human ignominy. Only Jesus is the antidote for you.

Ramatis, 09/01/06.

02. Providing assistance in abysmal areas

Clairvoyance: Luis Sergio tired and older is arriving. He sits in front of me, and speaks:

Visiting a region in the inferior astral, at the bottoms of dark regions, where we used to visit activities under the command of Christ, in helping the poor ones, we were astonished until accommodate there, despite the intense training we had by evolved Instructors and Disciples that used to work in regions like that.

The Instructor noticed our discomfort, as well as other pilgrims, what was expected when someone enters, for the first time in such atmosphere never imagined, and he make the place seems like summer resort.

Our Instructors said that we were just near the village of habitual bad creatures. These beings would not see us, because our contribution would be help spirits rescued by other workers of Light that were going ahead fighting, defeating the bad spirits and protecting the suffering ones.

Thus, our task was precisely to rescue some souls under our responsibility, since our devoted brothers had rescued the majority and sent them to various aid Colonies to which friendship and fraternity linked them.

Each group connected with certain spiritual Cologne had been rescued, or waiting for Rescue Parties of GESJ. Provisionally, I work at the Colony Servants of Jesus. While waiting, they receive First Aid at the Hospital of Campaign on that place.

At each step toward the abysmal regions, more anxious were our hearts. We connected more and more with Jesus, begging Him strength, courage, determination, so that great love of our hearts emerged toward those souls enslaved in darkness for long time.

Our group was small, because we were beginners in that activity. The instructors said that the group of rescued had nine suffering souls who no longer identified as male or female, such degradation perispiritual presented. The instructor encouraged us with such explanation.

As neophytes, let us pray, since we offered ourselves to this task offered by Divine Mercy, in some colonies of the astral plane whose workers had experience in rescue in dark regions.

As we advanced, the air was more suffocating in total darkness, where we could see only with our "spiritual eyes" and, we sought to activate our "internal sensors" after singular training.

We dressed special garments for dense atmosphere in or order to avoid damage, of difficult repair in our astral bodies.

After all, our psychic balance was essential to continue the task recommended by our instructors, guides and friends.

We remained connected with Christ.

There was not time for conversations or questions before that task and area carefully monitored. Nevertheless, to stay there was more different than we imagined. The atmosphere was full of lower vibrations, and we should remain vigilant in order to avoid imbalance.

We remained praying silently.

We left that village of darkness and the atmosphere changed more and more when we advanced carefully amidst of shaky and slippery ground.

We stopped at frontier of dense dark forest. The Instructor warned us that our destiny was beyond those misshapen and frightening trees. He asked us to redouble in strength, our sense of compassion and love to the neighbor, because **many of those trees that emitted moans piteously, they were human perispirit in total suffering led by perverse minds, to remain in that condition** due to their rebellion against the Laws of God. It was not yet the time to help them, however the Creator who knows, intimately, each of His children, he had not abandoned them.

The time will come to be withdrawn from such abject condition to retake the path of Light. Good Spirits take care of all suffering beings; and the "Eyes of God" follow up everything and all creatures. (Read "the Abyss from Ranieri – Editora Boa Nova).

We made a short prayer to the Creator to sustain us in the task we should perform. We also begged to Master Jesus involve those suffering brothers with His Infinite Love.

Feelings of peace and love involved us. We entered in a strange forest where suffering screams crossed the atmosphere and reached our hearts. We kept our minds in Jesus Christ.

We cannot describe our feelings before those strange trees that once were human beings like us. Intense compassion and love from our hearts involved those brothers.

We do not know how long took us to cross that dense way, when, suddenly, the trees were left trees behind and a dark desert appeared ahead. Yet we went always confident of the Presence of Christ guiding us, when appeared a huge cliff ahead. The instructor warned us that down there we would find the bale wanted, kept by Guardians of Christ.

We went down with difficulty the steep walls of the abysm, and my mind began to question how we should return with precious bale. The Instructor lovingly said, trust and go! We should focus all our attention on the descent, without questions, or doubts about the return.

With the mind connected with Jesus, the Divine Friend of all hours, we went towards the steep slope. A little point of light guided us. The Instructor going ahead asked us to pray to conclude promptly the task started.

We stopped to recover our energies and pray.

Again, we received the answer from sublime regions when, a blue light flooded that dark place and involved all who were there, rescuers and rescued.

We noticed that the place had suffered considerable change. The impression we had was that a tractor had prepared the place where Beings of Light had improvised a "Hospital Campaign."

We went to the point, where we should rescue souls.

Many anonymous, brave Beings of Light looked after those deformed creatures that were placed on stretchers, covered with white sheets, while were in restless sleep.

We did not recognize those beings, as humans; however, our hearts emitted feelings of pure love towards them.

Workers wrapped with love, happily embraced us, as if we were their best friends, not as neophytes that we were, in fact.

There was no time for long conversations, however, with gestures more than words; we approach the suffering brothers. Each one had a millenarian history of gradual decline, life after life, of their astral bodies. It was not the time to know it.

We looked at our instructor with a question: how would we transport our precious bale, carrying those brothers.

Suddenly, from the High, appeared a Light, similar a helicopter. It was small ship with a portion covered and another part like something already seen somewhere. I do not know to describe it.

The covered portion was for patients and the other party, the Rescue Parties.

I did not see the pilot of that transport exclusively for rescue in abysmal regions.

We said good-bye to our new friends and, on board, we returned carefully with our patients.

We left them near to exit of the Abyss, where would receive edifying energies and then each the surface, without damage in their astral bodies. They would not support immediate transfer to surface, after long time in the abyss.

The Army of Christ is powerful. Skilled hands received our sick brothers and, after necessary hygiene, they were placed in cabins for long treatment, and only then, would be transferred to any Cologne and later to exile.

Yes, my brothers, all abysmal creatures will be exiled. They have not yet conditions to incarnate on earth. First, they remain centuries in the astral plane of certain planet, until drain the dense and lethal energy adhered in their astral bodies, and become able to take some primitive body to start the way back to the Father's House.

Again, we are here, after our tour of learning. We recovered ourselves to continue this work, because after the training and lessons taught at this House, we are able to work with Christ.

I am speechless, but I know that another body of mine was in the abysmal regions, with full awareness of the astral body, which you can see it very tired now. Everything is new to me.

I imagined having large knowledge. Now, I am sure it is nothing compared to what I still need to know.

I want serve to Christ with love and devotion.

I am investing on studies to serve Him.

I greet you on behalf of Jesus, thankful for blessed opportunity of working with the Planetary Christ.

Luis Sergio, 08/25/06

03. Abyss ceases to exist

We arrived at vast Abyss where had an inhospitable "ghost forest". From there we set off seeking the habitats of the bestial creatures connected by black, invisible ties, more specifically with prisons.

That was the beginning of our task for destroying the obscure connections between Abyss and surface of earth.

Terrible Beasts command that territory, where keep thousands of souls enslaved. Some of these had been in the surface and returned to abyss.

I asked our Instructor if they had been incarnate on earth, and he did not answer.

In prisons, they had their deformed and enslaved spirits used for terrible obsessions. Our first step was to break the pernicious ties among them.

The second step, the most important work today, is the "habitat of Beasts" linked with regions in war in the Middle East. In both cases, to free the prisoners and defeat "man-beasts" slavers.

The Abyss contains vast region with connections throughout the Earth's surface. Thousands of spirits live there, and others, even not living, they have deep connections with inhabitants of that place.

In the Abyss, the Beast or Dragon is essential, which will, intelligence and ferocity expanded frontiers exploiting other beings. All creatures there, voluntarily sought that interference, more or less, when let its primitive instinct dominating them.

Those connections between Abyss and surface are present throughout the world.

Recently, after opening of dimensional portals connecting the surface of earth on those abysmal regions, the bestial creatures that mentally subdued the embodied spirits, now, transit easily between both worlds. They improved their power sending "armies" to pursue humans, in open opposition to the Nazarenes (workers of Master Jesus) seeking to dominate the entire Planet Earth.

While sending their dark forces to surface, they empty the Abyss. Deep roots should be removed for total cleaning, even through hard battles against those bestial creatures.

The Beast mindful of having its Army reduced, very angry, it sends "the worst servants" in order to keep it dominant.

At "end of times, the surface of the planet has its vibration too low increasing the hatred, which seduce more and more bestial creatures to abandon their millenarian habitats, and, at the same time, contribute to spread negative vibrations throughout the planet.

Since remote times, the Sidereal Engineers invested so much in psychological projection on earth and its inhabitants.

Many of those there should not be there anymore. Unfortunately, the rebellion against the Divine Laws kept them for longer periods in contact with lower vibrations, affecting deeply their psycho-spiritual morphology.

The abysmal areas cease to exist. Everyone who inhabits there will face hard troubles in other planets compatible with their current actions.

Blessed Be the Light! Blessed be Divine Master Jesus!

Paul, 08/11/06

04. Supreme Beings accelerate the cleaning of the abyss

God almighty allows the Light that pours from High, intensity of Strength and Love concentrating on the hardened hearts immersed in the darkness of evil.

My brothers, intense fights occur in the abysmal regions for helping brothers completely devoid of human feelings. Their bodies do not resemble a perfect human being created to progress. After removed from slavery crystallized in vice and hatred, for long time, they are unable to recognize themselves, or agree that Beings of Light sincerely want to rescue them.

Others, through fierce fights and already swallowed by infinite hatred for life, serving the "Beast" thirsty for lower fluids to keep them connected to the abyss. It does not matter the condition of humans, whether slave or lord, will abandon that place, which ceases to exist after removed the beast from earth.

Those that stay there by force of gravity, they will be magnetically sucked by "ships-laboratories" and, after changing their astral bodies, transferred to another planet compatible with their evolution.

Supreme Beings accelerate the cleaning of the abyss, because they want rescue more creatures before the collapse and destruction of the Abyss. With those supreme beings work few ones incarnated for that purpose and need of rigid purification in their physical and astral bodies. Despite of various Spiritist Houses overcrowded, few ones face rigid discipline.

This small Group has traveled the path of the redemptive work in abysmal regions. With us, they work, help, struggle and suffer to rescue our brothers from that place.

Go ahead! The Planetary Christ looks after us.

The Masters work with us and Jesus guides us.

Blessed be Jesus!

Paul, 08/11/06.

05. Most of terrestrial people will be exiled

Brothers, the world of Caesar seduce the creatures to worship material goods, the sculptural physical body, hypocrisy and immorality. Humans no more get to adapt to the "superior moral laws" saying to be "old-fashioned". This unreasonable attitude joins to inferior creatures that, like shadows, dominate the inhabitants of Earth of both planes of life.

Jesus loving emanates from His Sweet Presence, the Love for all creatures on Earth. Even so, the majority of humans do not absorb them because created around them strong armor.

Most of humanity go **towards an orb of less or similar vibration. A small number will deserve inhabit the New Land and, a smaller number humans will return to their original worlds.**

Creatures do not fail because of divine determinism. Each one is responsible for the construction of own happiness or unhappiness through the free will. Even so, they prefer the beast, which offers them a wide door of matter and pleasures, than the narrow door of spiritual ascension.

The sacrifice of the Lord Jesus was not in vain. Love surpasses hate. Darkness does not remain in the presence of light.

I greet you on behalf of Jesus.

Paul, 08/11/06.

CHAPTER 2 - PHILOSOPHICAL ASPECTS

There is no injustice. There is correction for wrong actions.

It is not for man judge, only help.

Man must bear in mind there is always a chance to abandon the mistakes and then find the solution.

Rochester

01. There will not have better days on earth

Clairvoyance: Energies of the Master Jesus floods the environment. I see him around us.

Firstly, His image becomes fire and floods around the world. Next, the same image of fire becomes water, and then becomes wind involving the entire earth. Finally turns into chaos.

Water, wind, earth and fire invades everywhere at the same time. It was an awful scene!

Everything is completely dark. I hear screams and I see mad people running from one side to another.

*I hear a loud and vibrant voice saying, “**Humanity, your time is up. You will feel the weight of your rebellion.**”*

Everything was very intense, fast and strong. I was very worried and sad. I cried.

I was already with my companions, when I felt the presence of the Master Ramatis, whose words I transcribe as follows:

Disciples, despite the larger storms and disappointments you face, believe in Jesus and continue working in His Name. The work is your redemption. **There will not have better days on earth.** Peacetime is over, since the human beings thirsty for power; they changed from comfortable home to vile actions imposed by their inferior instinct.

Destructive storms, uncontrolled by human hands and minds, planted by ancient rebellion against the Divine Order flood the entire orb.

They could not keep themselves kings and queens forever, because the physical body is perishable. Even today, human beings ignore such reality seeking the temporal power to feed them on illusory pleasures, even condemning their souls to eternal painful exile.

Collectivities face one another; since wars begin at home, next, invade neighboring countries and finally throughout the earth.

Your millenarian spirit faces the last moments on earth. You will be rightist or exiled leftist. There is neither an intermediary term nor third option. Doubts put you immediately as leftists, because without faith, the "Beast", who commands the Darkness will reach you.

Jesus Christ is only winner. He, who doubts neither did learn nor changed himself and may repeat the primary school in another orb.

Be ready, because the enemies look for adversaries of past lives. Imbalanced crowds face the adversaries, confounding them with each other; such is the similarity of feelings and lower vibrations among them.

Those already **evangelized, struggle for self-reform, face the enemies with the sword of justice and faith, not to destroy them, but to “rescue souls” from darkness, ignorance and mistakes.**

Do not fear, he, who has faith. Christ looks after all and waits for you to follow Him.

Injuries are inevitable, but falls no longer are allowed. Only who carries His cross will reaches the Light.

Take part of the Christ’s Army. We are many workers trying to rescue the Planet and all humanity from the yoke of darkness, inferiority and primitivism.

My Brothers, let Christ guide you. Only He has the medicine to cure your sick soul.

Blessed be Light! Blessed be Divine Jesus!

Ramatis, 02/23/07.

02. He, who does not serves the Light, he serves the darkness

Sisters, take advantage of peace you have to absorb in your souls, the source of light that pours from the High.

If was not the primary instinct of evil contained in man unable to dominate it, peace and harmony would be among you, and the planetary transition would happen in the way that some illusorily imagined.

It is nonsense! Peace, fraternity, union and faith are noble feelings of few hearts on earth. The majority only thinks about themselves and usually do not emit edifying vibration that could be useful for the planet and humanity. They only want satiate their instincts of destruction and accumulate perishable material goods.

They sail amidst of storms and only think about themselves, never about the suffering beings.

They appeal for Saints to solve their inner afflictions and, when solved, they forget completely the divine plane, not worrying about afterlife.

Indifferent to other suffering brothers, but only thinking on material and social life and then contribute to spread of the evil on earth. In fact, who is indifferent to light, even unconsciously serves the darkness.

Thus, the humanity builds their self-destruction through the darkness.

The negative beings are where can dominate and absorb energies to strengthen them. Thus, blind and unbalanced, the human being goes toward the end of a planetary cycle, which defines new directions for the eternal spirit.

We hope the Divine Force touch and awake them.

We do not know the time you still have, but it is not long time. Enjoy it and do not crucify Christ again.

Jesus guides and blesses us.

Nicanor, (Disciple of the Master Ramatis), 03/02/07.

03. The flame of hatred destroys creatures

The creative source of life continually supplies energy of all the Universes and creatures.

Men pass by live unconsciously ignoring the goal of own existence that is to transform them into pure Light of Love vibrating in superior planes.

In the bloody clashes, thousands of human bodies tumble or are maimed by bellicose artifacts created by other human minds also created to progress.

Men ignoring the Laws of God that could emancipate them from the yoke of matter, they still cultivate hate and revenge, which is going on for millennia, perhaps coming from other worlds, and heated on Earth, despite change of house and clothing.

Through their minds of hate, they pour the sticky bile to feed other creatures of destructive power, and far surpassing the knowledge of the poor men of the matter.

The vast concentration of hate at the same point, for a long time, allows the creation of cities and dark empires adjacent to the astral plane attracting the hideous creatures of the Abyss, and becomes the favorite

refuge of the Beast who sees with eyes of greedy Beast, the endless "source" of deleterious energy essential to its life and followers.

Many humans have fallen in the bloody battlefields. Those that after violent death are saturated with hatred keeping them vibrating with hateful creatures, these will catch them to be enslaved and used to tenacious obsessions, or to feed their "macabre experiences."

No innocent falls in their insane hands. There are not innocent incarnated at this hour of great violence on Earth.

Those that fall, but have their hearts free from hatred, revenge and prejudice that generates hatred and violence, they are invisible to negative beings and are rescued by thousands of servants composing the Army of Christ always aiding our suffering brothers.

The flame of hatred consumes the creatures and spread rapidly, destroying everything in which touches.

Poor human beings who overvalue life in the matter, not realizing how subtle are the gaps constituting each embodied life to the immortal spirit.

They believe to be invincible supermen thinking they are immortal in the matter. They lose valuable time to make progress in disputes that delay the journey and invest on fierce battles in the future.

The cruel and insidious war revered by men servant to matter, and contrary to the Light, it is invention of the darkness to feed their insane habitats.

Greedy for power and dominance, they will inhabit vast realm of stony until drain out their warlike cruel spirits from lethal poison dominating them. Thousands of human beings will face "weeping and gnashing of teeth," until their bodies vibrate in Light again.

Blessed be Jesus!

Yours Master,

Ramatis, 08/19/06.

04. Negative thoughts, words and actions feed the astral garbage

My Brothers, may the Peace be with you!

If you could glimpse the astral plane, you would be sad and surprised by the huge amount of larvae and miasma living there.

The human vibrations through the thoughts, words and actions constitute the environment around the creatures. Negative feelings and actions attract and feed the astral "garbage," multiplying the miasmas and larvae producing diseases in the material plane.

We are not speaking of larva planted by negative beings, but by embodied and disembodied spirits.

Humans do not need of larger efforts to clean up the atmosphere in which live. It is enough to control the harmful thoughts that often think is "normal", such as lust, envy, jealousy, megalomanias, rage, hate, revenge, and other anti-Christian feelings and attitudes.

It is increasing the contamination in the astral plane involving you due to the emanations from sub-astral planes facilitated by humans of "End of time."

Then brothers, instruct you to maintain healthy body and soul.

The saturation in the invisible plane is such that has facilitated the actions of "dark beings" against the embodied spirits.

The contamination of cities in the inferior astral described in the Spirit books, now spread over other invisible planes of Earth, due to imbalance and unpreparedness of people, as to spiritual things.

The number of "False Prophets" and their vile intentions multiply, attracting the ignorant beings anxious to get rid of their torments. There is association of vibrations and feelings between negative beings and embodied spirits that stimulate what is negative in the intimate of these ones.

Vibrate in love. Practice the Gospel of Jesus to maintain purified the atmosphere around you.

Blessed be the Light! Blessed be Jesus!

Ariadne, (ancient friend from Venus), 05/04/07.

05. Every human life is precious and must be preserved

Peace has no plural, because no Nation lives peacefully, while one sister nation is in war. There is not satiation of hunger in the world, while has one starving creature.

When we understand the simple unit that makes you, human, we will know that above us, Only One God commands, and has no reason to kill the brother in His name.

Every human life is precious and must be preserved. Every bloody conflict results from human moral and spiritual delay.

There is not imbalance of population among animals and, even so, there are natural mechanisms that incite people against each other.

They are artificial, the reasons that instigate brothers against brothers, sick minds of fundamentalists, whose purpose is to drain the intense load of aggression repressed over the centuries of domination.

The Law of Karma, without possibility of errors, join slaves and lords, for the reckoning that comes at right moment, for drainage of the negative load, accumulated by that people accustomed to crime. The inferior spirits find in physical body, the possibility of expressing their negative vibrations and so, feed on despair, fear and blood spilled of embodied spirits.

The foolish ones still believe that over the pain reaching them, there is a fair cause. In fact, there is a cause, less noble, to **destroy the humans, to subdue the earth and its physical and astral resources.**

Fair is only the Divine Law that, independently of larger or lesser degree of human understanding, it allows the vast seeding, while determining the painful harvest.

Peace forever!

Greetings,

Ramatis (i.e. Kuthumi), 11/10/06.

06. Empty Life

The international community of various human nuclei, composed collective cells, formed collectives, whose trajectory occurred connected by Cosmic Laws.

People that now enjoy the tranquility resulting from social welfare, have reached such a stage, after purification of the bellicose, magnetic load drained on he matter, through the wars and bloody conflicts, historically known.

The increase and improvement of unconditional love should have followed the purification of warlike instinct, however, attached to the dense matter, such collective-cells remain disconnected from the creative impulse of life, and therefore, neglecting the Laws of God.

As were not enough crimes against life, on behalf of an advanced culture, they moved away from the sublime vibrations of "good spirits," painfully establishing connections with profiteers and mercenaries of space. As result of the negligence spiritual foresight, people grouped in those countries are considered unable to progress, and in general, are strongly magnetized to the matter.

While living on earth, they enjoy pleasures afforded by excellent political regimes, social and economic systems. Nevertheless, after-life, they face with unmanageable nonsense in their lives.

High rates of suicide have these countries, because, even before the ill catch them, the dense cloud that hangs over such "human groups", affects the astral field of embodied minds, spreading the nonsense that grows where lacks the sublime love to the neighbor.

Young people and even children, not finding meaning in life, come into moral and spiritual degradation, putting their vital fluids in the hands of clever minds at service of Darkness.

It is true that material progress is the staff development policies of the nations, even more certain that all people throughout this planet surrender to their status as immortal spirits, and include in their developmental concerns, the creature's moral and spiritual conditions, without which, no peace is possible in the world.

We have to fight to win, but, first, we need to understand why, how and when to fight and serve.

Jesus is the Commander, and God, the General, to whom we serve in this combat of forces that soon will undertake its definitive battle, renewing on Earth, in areas impoverished who went to exile.

Netherlands, Switzerland, Canada, Germany, Scandinavian Countries, hallow nations, empty men, afflicted spirits and empty life.

Renew, renew, renew! .

Ramatis, 11/10/06.

07. We are simply brothers

Fraternal greetings!

We are a team. From our hearts start threads of energy connecting us and allowing the formation of vast spiritual family, of which you are distinguished representatives.

No more shall we separate, since, by choice, we meet and maintain the bonds of brotherhood that feed our spirits with the nectar of life: the loving work in favor of others.

The fraternal love, symbolism abandoned by the ignorant ones, now, retakes on its true sense, among those tired or sick by the impacts of life, they understood that the oasis of true love is the only possible refuge for hikers.

Secrets of Nations disappear. Masks fall revealing the true essence of whom used them, and finally, this humanity, at this end of times can worship the spirit.

Nevertheless, how many people wish understand what is happening in the world? The more painful the reality, more the childish, selfish, sick and feverish minds flee from reality toward tortuous paths of terror.

Terror of drugs that violate their bodies.

Terror of selfish vanity, of wanting only to himself or herself, what God offered to everyone.

Terror of pride that makes much credit to them merits far from having. The fanatic terror kills and destroys the sacred human condition.

Nevertheless, many creatures amidst of the angry mob and impelled by passions, stand out, by a sincere desire to vibrate above the inferior pattern of the humanity.

Every day, they keep their routine, but their minds are seeking, wildly, explanation about the emotions and events going on, not only with them, but also with communities in which live.

It is for those speechless ones, for those thoughts that beg for answers and are looking for a place in this world, apparently without connection, we wrote: we are those who already sent cries of impatience with the human pain and, like you, we beg to God explanations for the human destiny.

We are the ones going through the ordeal, as you today; we understand the meaning of life is not where we want to put it, but where the infinite wisdom planted it.

We are those who come to meet you today, to speak of lessons learned, hope and renewal that come sooner.

We are simply brothers whom, going forward, lovingly stop waiting who stayed behind us.

We greet you.

Ramatis, (i.e.Kuthumi) - GFBU, 08/04/06

08. Life beyond the stars

While considering them of high intelligence, scientists stay in the comfortable illusion and leave unnoticed countless data able to corroborate to immaterial reality of life.

Not only philosophical aspects, but also technical and pragmatic instructions from abstract mind constituting the body of knowledge bound to aid your humanity in building a world of progress for all humanity.

Against aphorisms, there is no wisdom able to reject backward and inconsequent conceptions.

Although the minds grow fully through the disciplined and repetitive exercise of cultures mutually built, the hearts fall asleep dominated by an authoritarian reason dictator of determinist truths. Arrested by the raw reality of cold minds, hearts get sick by deletion of the Flame Creator, which heat could expand, promote beyond the human reason, a transcendent understanding of life on earth.

Thus, there would be healthy opening to the communication and the contact with Extraterrestrial Civilizations around you. However, thinking as superior race, the evolved communities in the world fall, sharply, empty of restorer affect.

The warnings come to notify people by different means. Religion calls for communion. The spiritual friends spread orientation and hope. Nevertheless, self-sufficient creatures give little attention to what is going to be around. They

are immersed in their little worlds believing there is nothing beyond their lives and, voluntarily attached to their egos, like a little flea that believes there is nothing beyond its little hair attached to the body of the dog. If are removed from their world, they will see the huge universe to explore and to experience.

Thus those who only think on intellectual knowledge as only meaning of existence, they lose the possibility of immense spectrum able to provide them detachment and faith.

Dear friends and brothers, enlarge your lenses in favor of your progress. Abandon the poverty of thought electing you as kings and queens in palaces of stone, while many stars prepare blessed realms to wait your awakening.

Offer you to expand the horizon of others. This is the essential step to conquer new and advanced worlds.

The Earth, Planet-school, it is for sick souls. There are worlds, which communities-cells are for development of virtues and values in High Schools. They are capable of capturing the thoughts of the brightest minds in your time.

Think and develop in your intimate, a desire to advance toward the ultimate happiness. Give up the pain, look beyond of you, and soon you will see life beyond the stars.

Ramatis, 11/10/06.

09. Sovereign is the Will of God!

The reconnection between cell-collectives installed on the surface of earth, would only be possible, if each human group had developed fully the attributes of superior soul.

Unhappily, the majority did not reach this result, so depends on the Sidereal Rescue Parties to identify and choose individuals or groups, whose incarnation allowed to drain the harmful load to the physical plane, enabling them this way, through spiritual garments to reach other worlds.

Not always, what we think is inconsistent with Superior Plane; it is according with the sublime Mercy of the Lord Jesus who did not penalize the improvident ones to banishment. He submitted them to the subtle procedure of identification and separation, will force them to leave from their karmic family, reconnecting them to their karma and new spiritual family. Everything defined by personal effort and sincere desire of progress.

The bright spark of love in the heart of each monad allows reunification of new cell-communities to colonize the New Earth or to inhabit new orbs.

There are also those monadic centers that after serving their program of life on Earth, they will return their planets of origin and reintegrate those social-cells composing the body of orb.

Sovereign is the Will of God that determines the laws that govern our lives.

He who discovers the meaning for own existence, soon understands that submit to its power is the only happy road.

Many fraternal minds go with you. Some linked to you by deep ties of love and friendship. Others let by compassion, which reduces the pain; others follow you with vibrations of kindness and peace.

All with one purpose: to comply with the Will of Christ, identifying, separating and valorizing the Warriors of Jesus.

Blessed is the Lord Jesus!

Ramatis, 11/17/06.

10. End of humanity on earth

Clairvoyance: *I see Extraterrestrials, very tall and thin building the pillars of the Spiritist House GESJ. After, I received the following message:*

I greet you on behalf of the Planetary Christ.

O course, hidden in the hearts, the feelings of vile creatures remain fermented by hostile vibrations of "end times".

Moreover, the masks of hypocrisy no more sustain. Go beyond the wickedness of their emotions of hatred, dragging creatures for multiple deviations of their souls corrupted by the pleasures of lust, the hubris, the arrogance exacerbated. Executioners and victims are in the same range of vibration corrupting crowds. Deprived of love, they advance toward the physical and astral planes seeking the control of crowds toward the illusory, temporal power.

It is the end of "planetary cycle, and of negative actions provoking imbalance and chaos!

The planet Earth very tired is almost reaching a new dimension, so its recovery requires larger disasters to purify it.

Humanity, why do not you notice the abyss opening right against you, when insists on deviations of the path of light sent by the Father and the sacrifice brought to you, through His son Jesus?

Did not know the penalties for the soul deviated from the path?

You condemned yourselves to larger suffering in a crude and primitive planet, since you did not help other souls.

Loving Creatures come to alert your conscience, but your heart is darkened by false promises feeding your vile intentions.

You became pilgrims and declined spirits, since you were exiled to another area that has progressed to this sphere in which you live and from where will be again exiled, because of rebelliousness to the Laws of God.

Do you think able to deny the Laws of God?

Your free will is limited and, either you or those beings of darkness that guide you are powerful creatures as you think.

My brothers, you have to abandon your subversive intentions, and take the road of progress, practicing love to others, which exemplifies the lessons of the Divine Jesus.

Suffering reaching you is the reverse of your actions, and feelings

Laws of God are just and equitable. You cannot understand or judge them, with your mind limited by degrading feelings cultivated.

The Terrestrial humanity is finishing. Not just one civilization on Earth, but also all humanity is selected according with their vibrations.

In fact, I said no news, however, you still cultivate lower vibrations that you grant you exile in another planet.

To have knowledge is not enough; you must have love enough to overcome the suffering.

Brothers, see through the spirit, the future that waits you. You cannot see it through the perishable matter.

Jesus and His Gospel must be the Itinerary to guide you from the chaos toward the light of Regeneration.

Q: Are you the Greek philosopher?

A: As pilgrims in this planet, we were entitled this way, in Ancient Greece.

11. For a sick body, only medicine

Far from cultivating the "Flame Christ", we see "off" the "creative fire" while is "on" the "fire wild, serpentine".

Vile crimes increase among of humanity!

Men forget that the Creator, not created is Force on all probable and improbable events that will determine the "Stop!" to so much destruction.

Only one stage of a cycle will represent the memory of these inhabitants on earth, guided by instinct of destruction.

Humans are bound to make progress, since they have the universal law stamped inside the cells of each physical body. Being, itself, the cell repository of consciousness connecting life and progress and so, its ephemeral garment brings the load-energy ethereal of Superior Know-how.

Molded at the light of Cosmic Love, the cell keeps the memory of its have shapeless and meaningless constitution that driven by force of evolution, it has found the ways of cooperation that originated the evolved human condition.

This time is also marked by same force because, as humans destroy each other in silly fights, the power of evolution echoes the sovereign will for renewal and progress. Thus amidst of the destruction created, the pain, as fertilizer, it prepares the land for new and promising plantations.

Although wrapped with physical body, the humans retain traces of their true spiritual nature only the "wise ones" can distinguish and often recognize. Thus are necessary memories from everywhere to awaken the minds immersed in the illusory matter.

You were created good and pure!

Excelsis Jesus took you in His Hands and became you embodied spirit so that you attested your union with His sublime purposes. Nevertheless, most of you remain blind and leaving behind flowerbeds stepped.

Yes, you left behind, your land, home sanctified by Divine Love that gave you opportunity of progress; however, you were blind stepping on flowers donated for life, leaving behind the historical registers of destruction that now reaches you.

Men and women on earth! You are tiny cosmic particles sailing in the ocean of madness, which ultimately undermine the boat driving you.

For some souls, now time has come to replace the boat toward a calm sphere, where Love is the law commanding all events on earth.

. Like the cells of the human body, collectives (planetary cells) are delivered to different territories to compose the body of humanity on earth, materialized by Mother Earth

Joining by Laws of Affinity and Progress, the communities receive energies from High Spheres bound to supply the force of evolution. Thus, at the same time, allow the karmic plots, which strength unites the creatures.

Either the Humanity's collective-cells or cells of the human body, in its intimacy, know of paths and choices able to drive them toward evolution or fall.

The collectivity-cells have the sidereal memory necessary to build a solid existence; however, the body controlled by the mind, it is easily yield to tendencies less worthy of social life and, gradually, destroy the chances of adjustment and aggravating them, as sick souls.

Sick body needs of medicine. It does matter if it is bitter, since it cures the pains of the world, and renew the flowerbeds stepped, as fertilizer able to contain new seeds of understanding, perception and progress.

Yours truly,

Ramatis, 08/18/06.

12. The Earth on irreversible and painful transformation

Beloved children,

Your spirits contain registers of transitions, through which you were brought to this orb, as well as contain information confirming the events planned, but refuted by human science.

Too late, the world scientific community starts the process of awakening. We say too late, not because as men and women, we cannot renew ourselves intimately, but is **irreversible the end of planetary cycle, and its transition, new phase as Planet of Regeneration.**

In the same way that you were banished to Earth, many return to where they deserve.

Life on Earth will not finish. It just gives space for necessary changes occur like cleanness of the physical and magnetic planetary body, and its aura.

Debris produced by human minds and the materialization of ideas our of the creation, must be removed, therefore, only contribute to the adjustment of spirits no longer on Earth

Think above the ephemeral passions, and connect your vital impulse to the immutable Law of Progress so that you access the millenarian events brought in your souls, h serious soul, instructing you through the self-knowledge, without doubts as to future waiting for you. Then, practice the **unconditional love and abandon the foolish interests, because, while your planet passes by irreversible and painful transformation, change your thoughts, values and attitudes.**

Peace in your hearts

Ramatis, 03/27/07.

CHAPTER 3 - ON BEHALF OF CHRIST, THEY RETURNED

The road often is made of sharp stones that hurt the pedestrians' feet and it is still constituted of steep slope that consumes their energies.

Nevertheless, although difficult, it is the road of salvation.

Each creature must follow the path compatible with his or her task and guilty.

To abandon the difficult road for the road free from obstacles will throw the creature to obscure cemeteries of perdition.

Do not complain of the difficulties.

Buddha, GESJ, 05/02/07.

01. You have the Mark of Christ.

Brothers, peace is with you, flooding your heart, strengthening your spirits, and you remain faithful and courageous in vineyard of Christ.

Wrapped with the Light of Christ's Army of Christ, many cities and colonies of Darkness are emptied and the inhabitants conducted in accordance with their needs, and merit to emergency or directly to ship prisons. These will lead to another planet compatible with their lower vibration.

The black Cities are important points to drain the lower vibrations on surface. They are also places to "negative beings" free of the Abyss to receive guidelines and strategies of attacks against the embodied and disembodied spirits linked to the Light

Cities and Colonies of Darkness are destroyed in fierce fighting, where soldiers of Light, embodied and disembodied have spent their energies in mortal combats, and suffering impacts of pestilential vibrations. Only the workers of the Lord who received special training to participate in such fighting, incompatible, and lethal to untrained spirits.

You are part of this Army fighting and destroying strongholds of darkness in dangerous regions. Your physical bodies very often are affected with part of this toxic load. After fighting in such places, of course you hurt your physical and spiritual bodies with harmful energies of those rotten creatures.

From those regions, where few workers can reach, come viruses and bacteria toward the earth's psychosphere, affecting the embodied beings with bizarre and toxic diseases, which the medicine do not identify, or control them.

The radiant Light, Forces of Good have been destroyed those "strongholds", but remain thousands of them that requires so much work until destroy them. This will only occur during the "vertical integration of Earth's axis." The Intruding Star will "purify" the Earth, while attracting there countless negative beings from abysmal regions and colonies of Darkness.

Brothers, renew your strength and faith in God Almighty, because the attacks increase against the Army of Christ, as well as the work to clean up the lower astral plane and abysmal regions.

This work of sacrifice and renouncement can strength your spirits and you will have garments appropriate to celebrate the New Age. **Serve and follow Christ to ensure progress to your spirits.**

While in the invisible plane, the fights between Darkness and Light increase, in the physical plane, the pressure on the primary instincts of human beings increase terribly the chaos.

Corruption spreads like wildfire. Pride and arrogance dominate the creatures, and the Beast dominates all associated with its ideals to subdue the world, exploiting the others.

Cruel souls govern large cities and recruit other souls to control the Earth. The human justice becomes unjust and corrupt. Only depends on few sincere beings follow Jesus of Nazareth , because many of the official religions are associated to the Beast, fantasizing the destiny of souls, weakening the faithful ones, making them accessible to the Force of Darkness.

Those who believe in Divine Power, who governs the Earth and its inhabitants, who work actively in the vineyard of the Lord Jesus, they are the favorite ones for the Beast, which claws do not reach them. Thus, the Beast in

order to attack the Light, it sends its worst army toward the unvigilant embodied and disembodied spirits, requiring greater efforts by the Army of Christ that often intersects the emissaries of the Beast. Therefore, continue the battles of "Ends of Times."

I salute you on behalf of the Light and I leave the Peace of Jesus with you.

Q: Are you a disciple of the Master Jesus?

A: We are brothers, Servants of Christ Jesus.

Hezekiah, 08/24/07.

02. Composed into family by the karmic readjustment

Blessed is the Master Jesus that drives us.

Brothers, the work with Jesus requires study, but also the practice of love, which you will carry with you to the spirit world, said our sister Margarida.

The journey of the spirit on earth is blessed school, where occurs the physical and spiritual development of each individual.

Along of thousands of years, one spirit lived in several continents of this planet, various religions cultivated, and through the religious understanding, each one, according to own spiritual level, moves toward the divine plane.

Brother, in past lives, you were prepared for this life. As you know intimately, nowadays, you must practice the knowledge acquired, because Christ needs of other workers for expansion of His Light and rescue of souls.

All of you are together, as family for karmic readjustment to follow Jesus.

Work and open the doors to receive those in need, thirsty for knowledge, comfort and support.

Know that you were prepared for this task, and each one who wishes to participate with you in such task, must be prepared to fulfill it with love, obedience, resignation and good will.

Let the "old man" back and to emerge the new man in action, and desirous of change.

We hope that working with the Christ, you find the new man.

Peace in Jesus, the Light that leads us.

Samuel, 11/28/03.

***Note:** This message had "right address" but it is useful for other people, especially for those indecisive ones.*

03. The planetary transition is full of vileness.

Peace with you!

The Beast stimulates the human aggression.

It does not matter geographical distances or differences in race and language, the antagonistic people looks for fratricidal wars, often unfairly with destructive potential.

The Beast emerges from abysmal regions, in which is rooted for millennia and removed by strong force that cannot command nor resist. However, deluded, thinking of taking advantage of the situation, it throws poison directly on the surface of earth seeking to dominate it.

The Beast and its followers dominate and enslave so overwhelming, thousands of negligent embodied and disembodied spirits, often spreading pain among men. Victims pick the bitter fruits of their carelessness,

spiritually speaking. Surely, the Law of Progress will reach the Beast and throw it far from earth, into exile.

There is no innocent being. There are creditors and debtors of each other and all inevitably in debt with the Law of Cause and Effect.

The time passes by rapidly and untouchable and the creatures should take the occasion on earth, to spiritual renovation, unless you want the exile.

The magnetic force of Hercolubus (Intruding Star or Cleaner Star) incites the lower vibrations of embodied and disembodied spirits, while the Beast emerges from abysmal regions, seduced by the "husky voice" stimulating more and more in the creatures, the wild fire of inferior feeling, and the humans answers to its animalistic appeal, attacking each other.

The transition is full of vileness practiced so vile and infamous.

You do not imagine about the storms scheduled for this humanity, at this end of time. Only those who refuse to see and hear may remain deluded and so, will wake up in planetary exile.

Jesus is our Shepherd who gives us everything.

Samuel, 10/27/06.

04. Being among the wheat does not mean immune to pain

From abysmal regions, dark discharges of destabilizing energies reach the surface, toward the embodied spirits. These ones ignoring so intricate net of evil seeking to subdue their souls, ignoring the power of evil and the warnings coming from high spheres, they become easy preys and then, negative vibrations reach the distracted and negligent crowds with stronger violence.

It is the End of Times, the doomsday, the Apocalypse.

Those who did not take advantage of the time on Earth to self-renovation, or association with the Forces of Light, they will succumb on the dark side, not by divine determinism, but by virtue of irresistible magnetic attraction.

Brothers, more than ever, you are vulnerable to the "pain" since you have neglected the "love" to heal.

Storms spread throughout the planet over all creatures, independently of races and creeds. It is not the physical body that determines the intensity of suffering but

- Actions undertaken by every creature;
- Fluidic emanations identifying your spiritual graduation;
- Debts to the neighbor;
- Level of spiritual transformation;
- The positive or negative feelings cultivated intimately.

These aspects determined the Rightists and Leftists of Christ; **however, to be among the wheat, does not mean being immune to pain. This position may provide better acceptance and resignation to face the difficult end of times.**

The primary school (incarnations on Earth) ends, and will only graduate who practices the Law of Love.

Peace with you.

Samuel, 01/19/07.

05. Two thousand years ago

Clairvoyance: *I see Jesus entering in Jerusalem, on Palm Sunday, and the people joyfully waving to Him. Then, I saw Jesus with His Disciples praying in the Garden of Olives, after His crucifixion. I received the following message:*

The crucifixion of the Master showed that people's inferior level. They did not accept the man of Nazareth, and claimed for His death on the cross.

The Master could take another path to avoid His barbaric crucifixion, but he accepted the natural course of events, showing His high spirituality.

The Lord chose "to sip the last drop of bile."

We do not understand His choice; however, we followed HIM on Calvary, at distance allowed.

We did not make it by request of the Master who, humble, undressed himself before the angry people encouraged by the wicked priests.

After two thousand years, this humanity continues to crucify Him. It they do not absorb in their souls, the sublime words of the Master nor apply them in their daily lives, they reject Him again.

Arimathea, 03/31/07.

06. Marks of Christ.

I saw arriving a man with long hair, rude face and very beautiful.

His strong energy reminded me of a "tornado" or something similar.

He approached our group; looked at the sky, which, incidentally, appeared before my spiritual eyes, in a blue color very beautiful, as it were a living being.

While contemplating the sky, He recited a prayer, as follows:

... "Come Lord Jesus to break the fury of lawbreakers.

Come Beloved Master comfort those who cry.

Come Lord Jesus to arrest the beasts frightening your people.

Your Mind is the Glory of God; your Heart is the Light that guides us.

Lord Jesus, save us!

Redeem us from our sins, accepting us in your Blessed Army.

God sent you as His Lamb.

Lord Jesus, make us your Servant.

Show us where to go. You are the Kingdom, the Power and the Glory forever and ever.

Then he turned to us as a "authentic war leader", he said:

My brothers,

Here we are with you, as old friends or not.

I recognize old friends, why not say, some enemies.

After long years and lives, now we compose the same Army of Light.

We fought and won the battle of evolution that changed us from ignorance of darkness to wisdom of Light. Today, after so long, we can embrace one another, because we are bothers.

Let us go ahead! We are just beginning the battle against to Power of Evil.

The everyday confrontations, difficulties and obstacles represent more than burning the karma. They prepare you to overcome larger obstacles in a near future. **They represent for you, strengthening of Christ's Marks.**

Jesus, our dear friend marked us with His Infinite Love, however, we will give life to that mark, and we will grow.

Brave Warriors of Light!

You were called to compose the Army of Light in this battle.

We meet you later, after sounding the trumpets. Meanwhile, we go on fighting.

Through the power granted do me, I bless you, dear warriors, with the oil of the Father, and baptize Warriors of Love.

John the Baptist, 03/16/01.

Note: after received the messages, the *Medium or channel was surprised and anxious.*

Today, March 18, while transcribing the messages, I felt as if I were "hypnotized" and talked to my son about it so that I could to reduce a bit of intense energy of our brother John Baptist still magnetized in a simple paper through a written irregular and difficult to read. Tears dropped on my face, but of joy.

John Baptist was Moses reincarnated, said Ramatis.

Margarida

07. The first contact with spirits of Indians

You are here to rescue the suffering beings, children of God, brothers of Christ, today flagellate and crucified, as He was.

They are crucified by prejudice and hatred of white man. They cannot understand why so much hate and so, they kill and exterminate.

There is no way to rescue their culture or lifestyle of their ancestors. The precious heritage of ancestors lost due to the in time and prejudice. Even so, women and children remained as divine creatures, sons and daughters of God to be rescued from the worst conditions of life in which survive, or will be the extermination of all people. **It must be avoided**, and we count on you to rescue them.

Margarida: We are ready to fulfill the work.

John the Baptist: we show you where find a group of Indians.

M: We can go tomorrow.

JB: Wait for superior order to begin the cleanness and avoid attacks on you.

Wait the signal and, meanwhile, help mentally Indian brothers in that region.

M: try to break the hate by means of fraternal dialogue to understand their reasons, feelings and pain. Jesus is helping to win the battle with wisdom.

JB: only this way, with wisdom, we will reduce the hate and tension.

M: We are at your service.

JB: See you later.

Save the Force! Save the Light!

John the Baptist, 04/17/03.

Note: after this message, and little "advices" about the points of hatred in the astral of southern Brazil, we know that, the objective to our trip in those places was to appease the anger of disembodied Indians. For thousands of years, white man has exploited and brutally murdered many Indians.

Thanks to Divine Mercy, we brought them to reality. As said our brother Peter, we fished a big fish, the Chief Thuere of Caigangue Tribe.

Today, our friend is intermediary between various tribes and GESJ. He brings Indians in need for spiritual treatment in GESJ. Thus, we also clean up the planet to reduce our karma as embodied spirits.

08. Change from inertia to effective Christian Work.

Beloved sisters,

May the peace be with you!

I bring messages of love to you mediate.

Since remote time, we sought to remove you from inertia.

People succumb and blame their rulers.

They forget to include the reasons why so many fell. They seem themselves as the worst creatures on earth.

Poor fellows! Would any wizard survive **after practicing black magic for thousands of year, if were not fed by promises of easy solutions?**

Do the priests alone celebrate their own worship demonic on behalf of Darkness?

Do they forget the orgies programmed, in which nobody protest and where many quietly also participated?

All of you, boys and girls, young people and adults, old people and children are co-responsible either for the progress of ruin of your civilization.

Never had a situation of neutrality where the individual comfortably yield to the daily pleasures. Every choice has a price, even to stay in inertia.

Therefore, if you wish join and contribute to ascension of your civilization, act fast in the direction of your resolutions. Do not neglect your contribution in the name of the labor that renovates and builds the understanding.

Open the eyes of the blind ones; purify the confused minds, awake the cowards who do not want to hear, all immersed into alienation.

In the past, as opportunists you make many mistakes. No, time is up for mistakes.

Give up the inertia and help other brothers to take the right road.

Be good people, but never submissive to another will than that of the Father

Be brave beings, but not bad enough to see mud, where does not exist.

Be prudent beings, but get you free from paralyzing fear, so that your steps are not interrupted abruptly.

Be brothers loving one another and never will you be in want.

Leave inertia to effective autonomy.

Our Father gives you the present time so that you leave back the past and build the future.

Go ahead, brothers! We are with you.

John the Baptist,

03/06/04.

09. John Baptist, new leader of GESJ

Surely, the negative Forces attempt against you. Do not fear, because we are monitoring their steps.

It is amidst of such turmoil, in reply to guidelines received from High, I put myself at your disposal of this Spiritist House.

My spirit has grown and developed amid of turbulent times that preceded the arrival of Christ on earth. I have built my faith on sublime Love of the Lord and in His Presence; I put myself at your service.

Together we will go all the way, until remains stone upon a stone on earth. Together we have been, now, we monitor more closely different activities in this House.

As brothers and warriors, we work hard in the vineyard of the Lord in favor of a renewed world, full of light.

From you, no procedure should be adopted yet, against the adversaries of this House, until they arrive at the physical plane. Only then will be unmasked and revealed as enemies due their choices against the seeds of light spread by the Father's Will.

On that hour, driven by the Force of Light, they may leave you in peace forever.

Margarida: who are you, the new Instructor?

JB: I am your brother and friend, John the Baptist.

Margarida: My brother, once again, you are welcome to our House! We thank Our Father for blessed presence.

My brother, this House always is yours. I use to say that my character was more to John the Baptist than to Jesus. I mean the way I act remembered the brother in that incarnation as a forerunner of Jesus.

You are welcome to our GESJ!

JB: We are invited to activate intimately our **warriors kept for long time, so that we face the present and future battles.** We are Servants of Jesus.

Go ahead! The fight invites us to give up the inertia. Let us mobilize the force, good will and alert our consciences at service of Light.

Blessed the Lord Jesus who guides us!

John the Baptist, 02/03/05.

10. Middle East

Planet Earth is always attacked by Darkness thirsty for blood.

Time is over for dark beings attract entire communities through the hate.

Before the current situation throughout the planet, the collective deaths in may intensify. Disembodied immediately will be removed from the beasts to places compatible with their vibrations.

We accept the contribution of this Group (note below). We are all brothers, children of God Almighty, faithful and humble disciples of the Nazarene.

We know of all events in this planet. We also know the harmful effects of gigantic thought form fed for hundreds of years (read Divulgation 11).

Peace in Jesus!

Joshua, 06/01/01.

Note: Let me tell you about the help above *mentioned*.

Three days a week, on Mondays, Tuesdays, Wednesdays during mediumistic meetings, we address vibrations for places very poor, spiritually speaking: These are reformatories, prisons, slums, Indian regions, the Middle East, Africa, Schools, hospitals and enemies of Light (negative and fallen beings), and we welcome all spirits brought to our House. Thus, our brother Joshua, who works in the Middle East, he thanks for our little collaboration with enlightenment and love.

11. Jesus protects us

Many perverted minds attack bringing fear and disbelief to the unwary who doubts even the existence of the Father.

After hitting the shortsighted ones, and settled down the chaos, the bestial creatures intend to increase their enterprise that requires more and more human energy.

They exploit more and more the planet and inhabitants connected with their negative vibration.

That pernicious influence hit the arrogant and proud ones, and spread tentacles suffocating the poorest ones.

You are just living the beginning of horrors.

The Beasts insatiable suck at most the energies throughout the planet.

More than never, follow the Lessons of Jesus.

The Beast monitors carefully you that are brave warriors of Light.

The Father's Presence grows stronger in brave hearts that understand and hear the trumpets always announcing the destruction.

Jesus Christ protects you through His Emissaries lead you towards the Light

Elias, 09/21/01

CHAPTER 4 – CONCLUSION

"Where pride and selfish spread their
branches, the latent love waits for pain,
fertilizer of noble feelings facilitate the
germination to activate the dynamo of life."

Ramatis, 08/11/06

01. The wrench of Light

The disorder built by this humanity has complex roots in the imbalance of the soul not harmonized to the Universal Laws. Rebellious and undisciplined, they reach the "end of planetary cycle" immersed in instinct of destruction cultivated rather than sublimate them. This humanity is hypnotized by material illusion and neglecting the immortal spirit.

Countless negative spirits incarnate at this "end of time" are disturbing more and more the planet, and reducing drastically the chances for the Rightists of Christ.

Souls leaving from matter to the invisible astral plane, others will follow the natural course of evolution. They will incarnate in another planet compatible with their final examination on earth. These souls of different spiritual levels will compose similar groups in planets of equal or less vibration to get restart new spiritual learning.

New groups reincarnate on earth. Thus due to selection and urgency to incarnate, groups of spirits trapped in the astral plane, for long time, they saturate the planet with harmful vibrations.

Those who wasted the last chance to follow the Gospel of Jesus Christ, they are exiled again.

The embodied spirits that live at "end of times" will face difficult moments in an atmosphere full of negative vibrations of Beasts reincarnated. Thus, the rightists of Christ need of strong faith and courage for not succumb prematurely, without performing the last task that will provide them the desired spiritual progress.

The intense negative pressure at this moment planetary suffocates the Rightists, wheat, or Lambs of Jesus. At the end of times to which we refer, few rightists will face stronger suffering that get to support today.

Thus, brothers, Servants of Christ, forget the daily troubles and forgive the enemy, as many times as necessary. Love God above all things, and your neighbor as yourself. This way, you will recover yourself enough to face the next challenges.

The moments before and after the three days of darkness are reserved to reaffirm your faith in the Creator and His Apostles.

The Creator cannot patiently wait you destroy the entire planet to finally He announces the "**Enough**"!

When the Power of Darkness thinks that finally dominated the Earth and all humanity, they will be surprised by the "wrench of Light" that will free the Earth and few human beings that deserve the rescue.

The only thing you have to do to deserve the rescue is to practice the Teachings of the Lord Jesus.

Bear in mind the Gospel of Jesus as your Road along of this dark moment in which you live, but are going to and end.

Only Jesus is the Road, Truth and Life.

Peace in Jesus!

Ramatis, 05/25/07.

02. No one can serve two lords at the same time

To ignore the universal moral laws, and practice of life, is a grave mistake.

These laws cannot be applied only to correct other people and not to self-correction.

No one can serve two masters at the same time.

There is only one Law that classifies the creatures of superior worlds, and this is the code of the Gospel of Jesus Christ, the true Jesus, because the false Jesus, designed to frighten the ignorant creatures of minds manipulated by Darkness and followers, incarnate or not, throw them into the fire of hell. Not try to keep you deluded and follow them.

Prepare your mind to feel the presence of light, and deny the Darkness.

Do not be rebel person again.

Jesus is with you.

Ramatis, 05/25/07.

03. The Spaceship Earth accelerates its movement out of this dimension of pain

Nemesis, "goddess of retaliation", throws her tentacles over humanity.

Humans, under pretext of justice, throw themselves in pursuit of their rights and justice sowing even more discord.

You live in a world where injustices increase; but those who suffer injustice today, in a preterit life, not distant; they already practiced intense and profound injustices.

Brothers, if you have today the bitter harvest of past negative, avoid the insane rebellion, which inevitably will throw you into the darkness.

Seek during the present harvest, the Gospel of Jesus to support with courage, the tentacles of Nemesis cultivated formerly.

Nowadays, bizarre creatures emerged from ancient tombs, abandon the Abyss, where have practiced vile actions against unhappy fallen beings, and attracted by disorder of the modern man hindering the recovering of repentant souls.

Nevertheless, those really seeking change; they use their free will, not to satisfy all the desires of his soul negative in process, but in attempt to discipline it, following the road of Light through the Gospel of Christ.

Intense imbalances occur in nature, in complete correspondence with imbalances of the human soul that inhabits the planet.

If man practiced good actions, darkness would cease to dominate, insistently, the human kingdom.

Thanks to human incompetence in governing own destiny, darkness averse to light that renews, it gains space in human hearts and invade the Earth.

The lessons of Jesus were forgotten and transformed into a vehicle of mass manipulation

All Nations of the orb suffer, even via global disturbances, and yet they do not join as brothers in humanity to achieve a goal of saving the human race.

The national interests, patriotic, racial, religious, cultural and economical factors are above the planetary survival.

Abuse and deviations of the soul begin in small individual actions, expand to the nuclear family, regional communities, reach countries and cover the earth.

The evolution of the soul, independent of the environment in which live, because all creatures have the background of their consciousness that is God and, intimately, recognize clearly the path of good and path of evil. However, seeking the animal pleasure, throw themselves into the arms of egocentrism.

Brothers, the signs of "end of times" are visible. The smoke signaling is sighted in any geographic region. There is no chance to the man stop the fetid mud that swallows and drags him into exile. Men want not to **give up the material pleasure built with "hard work."**

You do not have to live in material poverty to practice the moral laws, but the people have chosen luxury material and moral misery.

All people have a great commitment to the failure of humanity and destruction of the planet and, all will suffer due to the planetary degradation.

Do not think that you are alone, abandoned in the chaos. The Excelsis Father supplies your needs, and the Master of the Masters spills constant and uninterrupted, His Love upon you. Being attached to the lower feelings and material pleasures, you are immersed in a fetid mud of errors and vices and so, unable to feel His Sweet Presence at your side. Thus, you will break the barriers of matter toward the painful exile.

Brothers, all religions, even the sectarian ones teach the Lessons of Jesus, and yet you remain seduced by allegories that obscure the road and throw you into darkness.

You are no longer primary souls ignoring the reality of life. It is simply by rebellion that you avoid the right road for spiritual improvement.

You think to be injustice your suffering in the matter, thus giving free flow to lower instincts, rendering concrete the ideals of power and domination wished by the Beast. It is not due lack of warnings that, once again, you suffer in the darkness.

The Spaceship Earth accelerates its movements out of this dimension of pain. You misused most of the time you had, but you can take advantage of the little time you still have.

Look for Resuscitated Jesus and practice His Gospel, in faith and union of purpose to reduce your suffering. In fact, the exile waits for you, but you can go to another planet, if you wake your conscience.

The Father does not want to lose any of His children; but see them happy fulfilling His Laws.

Peace forever!

Ramatis, 04/27/07.

04. Beings of Light surrounding the Earth

Greetings of Light to our beloved children.

To break the chains of negative thought forms dominating this astral-ethereal field on Earth requires of you all, efforts on studies, perseverance, charity and vigilance of the humble spirit that you are, therefore you know your condition before the Divine Law.

The study provides a tool of knowledge toward new attitudes.

The knowledge allows your contact with "Beings of Light" surrounding your orb and currently provides support to renewal for those who desire it.

Nevertheless, the limited knowledge changed into inert thought, it generates stagnation of the creative energy, breaking the cycle of power that supply the channels of irrigation channels on the planet, and renew a

the Planet's channels of irrigation, and renovate the circuit that keeps active the planetary chakras.

Put into circulation, through the efforts of charitable work, these channels allow the power of new thinking to help the poor ones, sustain the weakened, and assist sick souls, and so, establishing solidarity in favor of human progress.

Vigilance is the mental attitude to defend you from dangerous abuses, keeping you on the route chosen to study and love with Christ.

Follow the route of redemption dictated by the Master and, you will develop the mental autonomy to associate with Beings of Light, anchoring your minds above the suffering.

Yours Master

Ramatis, 05/30/07.

05. Man created for love becomes vehicle of pain

Throughout its existence, the Beast and companions sought scientific and technological ways to build "portals of communication" between the physical and astral worlds. Through black magic might open cracks between the two worlds, allowing the passage, for a limited time, of companions to the material world.

But it is, exactly at this "end of time", where the harmful energy circulates abundantly around the physical matter, that these cracks, holes, doors or portals are abruptly opened, by the explosions of bombs of hate.

In the invisible plane, many mechanisms connecting cities of the inferior astral were built to access the physical plane, without however, find the appropriate means to support themselves.

Explosions of bombs of high destruction hit the molecules that make up the matter, in both planes, causing such opening. The "bestial creatures" use those openings to reach the surface of earth with their dark Armies, when will be immediately destroyed by the Light.

There was not construction of equipment of Darkness just in a point, but in several places where explosions of high-destruction, hate and revenge disperses abundantly.

Brothers, at this end of times, the routine of the Warriors of Light has been fighting, daily, in the invisible lower zones destroying constructions where human slaves are exploited, defeating negative beings and rescuing prisoners.

Despite the incredulity of most people, the battles are necessary to purification in lower regions of the astral plane.

Created for the love, men become vehicles of pain.

Jesus, as Great Governor of the World, He works tirelessly for liberation of the human soul from the yoke of ignorance.

Peace forever!

Ramatis, 05/11/07.

06. The end of times approach

Before our spiritual eyes unveils humanity devoid of love to the neighbor.

All the efforts of Beings of Light bringing callings of alert to touch them the hearts indifferent to the suffering of others reached few creatures.

Forces of Good made more than an attempt in divulging throughout the world, in order to clarify that the "end of times" is approaching, with no chance of survival on earth devastated by human hand. However, the skepticism still

dominates the hearts and, even the pain that comes; it becomes a factor of rebellion in creatures devoid of faith.

Humans follow their materialistic lives, indifferent to planetary events.

Time of choices is finishing for negligent spirits. Now, there is only one way toward evolution. This path is illuminated by the Lessons of Jesus. He, who does not adhere to the Way of Light, inevitably chooses the exile.

The incarnation key presented is too valuable to be wasted.

Awake up, brothers! Awake!

Peace always.

Ramatis, 05/04/007.

07. Cleaning and sanitation (I)

Beloved disciples, I greet you in the name of Jesus and I wrap you with my love.

Throughout the orb, the Masters of the Great Universal White Fraternity seek to gather their pupils committed with the Great Plan to sanitation of the Planet's shady areas unimaginable by human mind.

Those disciples committed to the work of "end of times" have training and knowledge acquired over many lifetimes, while they toiled worked as "beginners in various sects and entities," not always linked to Forces of Good. Therefore, they acquired knowledge and skills on underworlds, even before converting themselves definitively, to the Lamb.

They were sent to Earth to hard task in order to pay their large debts contracted in past lives to the Divine Laws. Theses debts referred to the deviating of souls, human incompetence, carelessness and negligence of their souls unable to take the path of progress, to perform their tasks, when many gave up work, without even starting it.

These disciples, whose Masters work in favor of the Earth, they had committed to meet and train other beings for this end of times, with the cruel and intelligent creatures of darkness that, deliberately, abandon the Abysses toward the surface of earth.

The few who have completed the task determined by the High for this incarnation, they have been training warriors affiliated to the battlefields in favor of the planet. Few ones, since they have abandoned the task, they caused delay in the number of warriors. Thence, they fail in training many creatures that lost their journey, without the beneficial influence of their lessons, force and courage.

A few ones were rescued by other disciples, who replaced them requiring larger efforts to compose the Army specialized Training, which acts on behalf of the Planetary Christ, in the abysmal regions.

The rebel disciples, for disappointment of the Masters, will follow in new planetary cycle in world compatible with their nature.

Those that remain, if complete their tasks; they will have the consolation of the spiritual journey.

The daily difficulties in the invisible plane, with a negative compact mass of high destructive power have exhausted the strength of the disciples and followers actively engaged with the task of cleaning and sanitation of the invisible plane on earth.

Once detonated the events that announce the "planetary transition," these cannot be reversed. They will rapidly advance indifferently of unprepared

humans who had every opportunity to improve themselves, spiritually, to face hard proofs offered generously, by the loving Father who protects His children.

The rebellion subdues them and, unfortunately, tumbles irascible before the moral discussion at this last hour.

He, who has completed the final stage of planetary cycle, with credits will reach a new sidereal graduation. However, the large mass will be disapproved and fall into new exile.

The warnings and opportunities are many for all children of God to recover all with sincere desires to change.

The superlative pains at this end of times announce the end of opportunities.

Materialistic crowds renounced Jesus and His Gospel, as itinerary of liberation.

The Father blesses you in the sacrifices for your release.

With love from your Master

Ramatis, 09/14/07

08. Cleaning and sanitation (II)

The withdrawal of the Dragons (Beasts of Darkness) by the Forces of the Light could be without participation of humans still devoid of light, but already awake, and have activated the dynamo that expands the inner light, while making good actions. Humans forged the darkness that either in the physical or astral plane, at some stage of its existence, contributed to development of the abysmal regions and creatures over there.

Therefore, it depends on same human beings, now rightists of Christ, to purify the world and through some fights, destroy the "Power of Darkness," which in the past has served as partners.

Nothing happens on this planet, in the astral and physical, without the Father's eyes.

The Superior Command led everything to immediate liberation of the planet and its rebel humanity.

Jesus goes ahead guiding us with His Infinite Love.

Greetings

Master Ramatis, 09/14/07

09. The future of Humanity traced with fire and sword

Beloved daughters, the Light of the Divine Master Jesus Light involves you to continue this incarnation serving through the redeeming work.

The future of humanity is traced with iron and sword through the dramatic events to cauterize the wounds of their bodies affected by vices and moral distortions.

The creatures seem to ignore the current crucial moments and, if people talk about the apocalyptic moment, do it casually or superficially, therefore, those that **understands the "signs of the end of times" create new plan of life seeking self-and encounter with Christ.**

Whether through fear or courage to face their guilty conscience, one who is willing to share with the next walk, sharing what little they have, searching in their hearts the feelings of low vibration, in order to modify them, they can reach high vibrations, which turn them rightists of Christ and open access to the

“Rescue Parties.” This humanity failed to understand that a planetary cycle is ending and, to ascend to the World of Regeneration requires sacrifice, not desperately seeking the illusory happiness, which confuses the mind making it blind to real goals of life.

Each one has a sidereal history catalogued in files of the Universe, and all have unique purpose of spiritual ascension, struggling for transformation of the old men, full of deviations of the soul, and the construction of a new man able to reach a world of evolution.

A large percentage of humanity is fallen beings from other planets. They are not from Earth and already have credentials to take the right path of spiritual progress.

Unfortunately, these fallen beings will face again exile in other Orb similar or inferior that Planet Earth.

Jesus, the Divine Architect of the Planet Earth, He sacrificed Himself on earth seeking to change the creatures that still refuse to practice His Lessons. They prefer the inertia and illusory passions.

The occult Government of Darkness gains strength and power, especially due to the insistent rebellion of creatures against the Divine Laws.

There will still be many fights to rescue the creatures practicing bad actions. These slaves and Lords of themselves or of others must be removed, before sounding the last trumpet announcing the end of times, the end of this humanity and, beginning of a new earth with new humanity free from negative beings.

Darkness, stinging pains and struggles in new exile, since all are children of God and, therefore, a new phase, as possibility to self-reform and spiritual ascension.

Those who do not practice the basic lessons of Jesus, and unable to situate themselves in the ascendant magnetic field, they will be, compulsorily, expelled from the Earth.

The Parties of Rescue will only reach those who fight to restore internal balance, expanding it through the practice of Good.

Do not have doubts about the criteria for ascension along the planet. **Do not just learn the words of the Gospel of Christ, it is practicing it that the spirit gives life and is reborn to regenerate life.**

I greet you in the name of Light.

Peace forever!

Ramatis, 12/07/07

PART 3 – TO REMEMBER IS TO LIVE

Those that spend forces and times on infantile judgment concerning the Divine Procedure should examine carefully the origin angelical or diabolical of own feelings, attitudes and actions.

He, who faces himself, is better than accusing the others of their responsibilities, attitudes flagrantly known about the insane human procedures.

Yuri, 11/17/06
Commander of rescue during the
planetary transition.

TO REMEMBER IS TO LIVE

Perhaps many readers do not approve this part of the work, finding it contradictory to its title: the fallen ones and their trajectory on Earth. We cannot please everyone, not even the Great Rabbi did. Most of His people chose Barabbas, and He was cruel and brutally executed, and even today, denied by those people.

How do think about wanting to be different?

Now, I am 84 years old, near to the great journey of no return, I take the occasion to pay homage to our dear brothers Hercílio Maes and America Paolielo Marques, disciples of the same Master Ramatis (= Kuthumi) or "sheep of the same flock."

I am eternally grateful for your letters psychographed by both ones that confirmed that I am also disciple of beloved Master Ramatis.

I have read for several times the wise words of the Master addressed to me, and always made me cry.

The paper and I are worn out along the time. Hercílio and America are already living in another dimension!

America eventually brings us News of Beyond. Hercílio already has his place in our GESJ (Grupo Espírita Servos of Jesus). He is one of our Instructors and answers for ASJ (Shelter Servants of Jesus) in the astral, for the time being replacing our brother Ranieri Matias who is working in superior planes.

Thus, as friends and brothers, disciples of the same Master Ramatis, we work in favor of the Planetary Transition.

Margarida, Leader of GESH.

Chapter 1 - Memories of Hercílio Mães

It is the lack of love hurts your soul and will throw you into inferior worlds than the beautiful Planet in which you live.

You know the "right road." Why do look for exile?

Orcadim, (Intraterrestrial of Okay City),
Chapada Diamantina /BA.

01. Reading old letters

A warm feeling floods my soul, while reading now, in December 2005, letters from my dear brothers Hercílio Maes and America Paolielo Marques, Disciples and mediums at service of our dear Master Ramatis (Kuthumi) of the Great Universal White Fraternity.

At this time that I am 82 years, I sincerely would like, I were in astral body on a beautiful beach of this vast Brazilian coast, after a nostalgic and comforting hug, quietly talking with these two spiritual brothers, talking of our past lives. Now, we are three among the fallen ones in this beautiful planet that in a loving way received us. "Thank you dear Mother Earth. Eternally grateful, never will we forget you.

Although America and Hercílio are occasionally with us, through our Mediums, a nostalgic feeling flooded my heart. I decided to share with you, friends and readers, especially groups of the Master Ramatis spread throughout Brazil and some countries of Latin America, some memories that I keep affectionately. They are true drops of light that illuminated my difficult journey over the last three decades.

I had no opportunity to know Hercílio personally, but about America, we occasionally met each other in Rio de Janeiro, Vitoria, Guarapari and finally in Brasilia, where she died. They are generous hearts, great friends and sincere servants of the Lord Jesus, to whom I owe the little I know.

I will transcribe some letters of Hercílio, whose books I knew even before the works of America. Firstly, let me tell you how I knew Master Ramatis.

It was on fifties, I was reading the old magazine "O Cruzeiro" when I noticed an unusual three- page report on the controversial Doomsday. The first page published by the Catholic Church, the next page by the Protestant Church, and the third Spirit by Ramatis, psychographed by Hercílio Maes.

The first two pages brought no news, but the third one of Ramatis touched me to "new reality", as if I had received an electric shock.

I already knew that name, Ramatis, not from this life, but kept it in my sidereal memory and intense emotion involved me. I said to myself, I would not rest until find out something more about this man, because the magazine only had the message.

Once, an old friend told me: I was in Rio de Janeiro, when my daughter gave me this book. I do not enjoy it and then, I brought it to you.

The book was "the Survival of the Spirit" by Ramatis. I had a "treasure" in my hands.

Some years later, I was in Cachoeiro of Itapemirim/ES, where I found books of Ramatis and thence I got others that I wanted.

On December 23, 1970, even before creating GESJ, I sent a letter to Hercílio, without success. I tried again and the answer came.

02. The first letter

Curitiba, December 30, 1970.

Dear Sister, Margarida Pinho Carpes.

My wishes of Peace and Joy!

. Too late, I acknowledge receipt of your kind letter of October 16 and August 8, given the delay to answer many letters.

Glad to know of your affection for Ramatis, It already shows your advanced idea, because my dear Master is only accepted and loved by the universalistic spirits able to vibrate with all the other brothers, without prejudice. In fact those who love the Master Ramatis, they are fallen spirits from other worlds, because the brothers not connected with him still have "terrestrial consciousness" forged here on earth.

Thus, still have fanatic, sectarian, reserved, obstinate beings whose opinions do not agree on other ideas. I congratulate you for that affection to Ramatis, and to meet one more exiled spirit!

We are thousands of souls exiled from another globe, of course Planet Mars, as well as Ramatis was. He has been with us since Atlantis, 28,000 years ago, and sometimes incarnated to help us. He was the great philosopher Shy-Ramat, in Atlantis, at Temple of Sun and Peace, then an important priest in Egypt at that time of Pharaoh Amenhotep IV. Later, He was the distinguished Pythagoras in Greece, although Philon of Alexandria, at that time of Jesus, and finally, Rama-tys, an important Buddhist Priest in Indo-China, 1,000 years ago, when many of us learned with him, the magnetism, psychometry, dowsing, clairvoyance, telepathy and therapy. I was the great philosopher Shy-Ramat, in Atlantis, in the Sun and Peace Temple. Next, he was a wise Major Priest in Egypt, in that time of the pharaoh Amenhotep IV. Later, he was the distinguished Pythagoras, in Greece; still Philon of Alexandria, at Jesus' time, and, finally, Rama-tys, very important Buddhist Priest, in India-China, 1.000 years ago, when many of us learned with him about the magnetism, psychometry, clairvoyance, therapy and telepathy.

Lobsang Rampa and others – Lobsang Rampa is instrument of a Great Tibetan Master in charge of expanding the spiritual literature on earth. He fulfills his mission in Europe, like me here in Brazil and others act among other people. They are excellent books to understanding about the prophetic hour in which we live. My sister, while examining your eclectic and wide spiritualistic literature, free from prejudice, it made me happy.

Up to now, I have only been surprised and amazed when sectarian and fanatic spirits admit Ramatis, considering the rule to meet a spirit exiled from other planets, when have fallen due to individualistic mind, whose amplitude of religion is universal.

I have been even rejected by Spiritist brothers of Brazil, who call Ramatis as "fantastic" bringing confusion about the Spirit Doctrine," but it does not disturb me, because, since remote times, I already knew that this would happen.

To receive your letter give me comfort, after receiving a hundred letters of irony or silliness. A thousand times, better an admirer of Ramatis, as you are, than a thousand of fanatics and selfish brothers. Nho Quim, an evolved spirit, follower of Ramatis, said, "Current and sectarian spirit are like foxes that have changed the skin, but not the nature! They were "sectarian" Catholic or Protestants and, now, continue in the same way with the label of spirit.

Hosanna, therefore to ingenuous person who follows the Master Ramatis, love all humanity, enjoy all the religious efforts and know that only Love saves us! As you know my, sister, Ramatis like is one of the best publishers of the Lessons of Jesus to whom worships.

Life and Spirit Immortal - It is a recent work of Ramatis already at second edition. I psychographed "*Life beyond Matter*", "*Problems regarding the*

Spiritism" and "*The Gospel regarding the Cosmos*". If you want some book autographed, I send to you. Maybe, in reply to you, I received a short message from the Master Ramatis addressed to you. I will transcribe it and send to you.

My fraternal hug to you.

Hercílio Mães

Note: Privately, I inform you that the spirit of JT responsible for foreword of the works "*Sowing and Reaping*", "*Magic of Redemption*" and "*Human Life*", is Jeca Tatu, i.e. Monteiro Lobato. Ramatis still operates in the theosophist sphere, with the name of Master Koot-Hoomi = Kuthumi, Ray Martian blue emerald, frequency of Peace and Love.

03. A short letter from Ramatis to Margarida, on Dec.29, 1970/Curitiba

Dear Disciple,

Although attracted by your spirit, the times you thought of me, and by the renewal of our spiritual affection along of the time, through the Medium that serves me, I am sending to you, in words of the physical world, my fraternal thought.

Despite the inner fights at home, and about to reach the astral world, never sorry, because, like the rough gravel mined from earth in process of purification, your spirit also goes to angelical ascension. The human incomprehension, often in the family, is nothing more than a striking difference of vibration, in each one's spiritual level! A gentle, tender, patient, stoic, generous and sublime soul is spoiled in its physical experience, because is the entity leaving gradually from Caesar's world to God's world!

Hence the warning of Christ, when thus mentioned: "Whoever wants to follow me to heaven, take up his cross and renounce life for my sake." Be a diligent and attentive student to painful lessons in the school of matter, in order to graduate yourself as "Rightist of Christ" at this prophetic hour in which live your embodied brothers! Other schools more sedative and enjoyable wait for you beyond Earth, but your nuptial tunic must be free from debris of negative life!

Work and spread messages that renew the spirit love and forgive the enemies, and in time of troubles, Christ opens His arms to comfort your heart.

Yesterday, dear disciple was in spiritual purification, today, Margarida is a symbol of affection I have ever admired.

Ramatis

04. Another letter

Curitiba, January 6, 1975

Mrs. Margarida Pinho Carpes,

I think you will be surprised to receive this letter, because your letter and other 500 returned to me, months after sending, due to the sudden change from my previous address, and negligence of those who returned the letters to general delivery. In fact, I receive more than 700 letters a month, which made more difficult my answer. In any case, the timing does not matter, since we vibrate in spirit.

Radiestesy – Actually, I am very sensitive to the radiestesy with a 95% success in curing the sick ones, almost hopeless. I was cured by homeopathy, when I was a boy, and so, I decided to study medicine and homeopathy. After 3

years of medicine at Federal Medical School of Curitiba, I studied more 3 years at Institute Hanemaniano, and so I have been working for more than 30 years. My wife is my secretary who learned radiostesy and uses homeopathy to treat children.

RAMATIS – In his own words, his work is universal in nature; hence the reason of sectarian protest, transforming unforgettable Kardec who had never been separatist into patron of spiritual mediocrity. Today, "Kardecism", is synonymous of fanaticism and mediocrity, thanks to the stupidity of wrong adepts! A mestizo of Umbanda in Curitiba said, "Nhô Kardec created the Spiritism and, the Spiritists founded Kardecism! Nhô Kardec raised the curtain of the Universe; the Kardecist closed the windows because of the sunlight! (...)"

Well, as I am not sure to find you in Vitoria, let me know for a long and beautiful dialogue.

Hugs,

Hercílio Mães

Note: RADIESTESIA HOMEOPÁTICA:

Dr. Hercilio Maes: Tuesdays and Fridays, from 7:00 to 12:00 hours.

Rua Mamore, 1011, Lar das Meninas, in front of. Canal 06, Ônibus Jardim Mercês, Curitiba - Paraná.

05. Homage to Hercílio Maes

On November 21, 1999, we made a vigil in our GESJ III in Jacaraípe/ES.

During the concentration, memories of our brother Hercílio Mães (Medium of Ramatis) were very strong mentally, as we were talking. I also reminded of his words in my lecture, when I mentioned him during the International Congress Ramatis in February 98 in Sao Paulo. I will insert it here.

"In the 1950's I rediscovered my dear Master Ramatis, through a psychographic message of Hercílio about the end of the times in the magazine "O Cruzeiro".

Hercílio Maes, whom we respect, we have gratitude and affection, for facing courageously the prejudice, the evil and sectarianism always faithful to spiritual purposes of Ramatis before reincarnated.

On that time, he was not afraid of publishing the book "*Life on Planet Mars and Flying saucers*", with strong impact in the unsuspecting minds and, consequently much controversy that remains allied to abandon and insult.

Nowadays, when I see in the eyes, I realize through the voice and gestures of many people, the disdain and distrust speaking of Extraterrestrials. Thus, I think how much Hercilio had suffered, when received letters insulting him, from pseudo spiritualists stopped in time and space, as if they were the truth. Even now, 50 years later, the official science still ignore us (or hide the truth), despite of the improved technology and the advancement of Science. Only someone courageous, with much love, faith and trust in his Master can to fulfill a task so difficult was able to publish other important works on spiritual knowledge also "explosives". It would not exist today our dear Ramatis loved and rejected, despised and followed, discussed, praised, discredited and even famous, without the great medium Hercilio Maes.

Reasons for my gratitude to Hercilio here today:

1) I am experiencing a similar situation: I am seen as fanatical, insane, radical woman causing troubles and panic in Brazil and in other countries, while divulging our messages via Internet in English, Spanish and Esperanto.

2) Accept or not, our dear Mentor Ramatis (Kuthumi) of the Great Universal White Fraternity is an Intraterrestrial from Mars. I received this revelation through a letter from Hercílio on 30/12/1970. Our lecture in the Congress continues, and we return our vigil.

After the concentration, the mediums spoke what had seen, read, psychographed, and described the astral travels that made. I said nothing of my memories. Next, we went to Praia Grande/ES, where we concentrated again to recitation of mantras at 12:00 ó clock am. Among of messages received by the Mediums, was one from Hercílio Maes that made me very happy. Here it is.

06. Ramatis and his teachings

Dear Sister,

Go ahead on the work of pure Love; however, to defend the cause of the Master Jesus, and spread the teachings of Master Ramatis is not easy task.

Our Master still suffer offenses referring to His Teachings and Love to the truths divulged to this perverse society that disagrees on evolution of this Doctrine.

The teachings that you divulge and your attitudes before this group are evidences on our confidence in you.

We are disciples of same Master.

Hercílio Maes, GESH - Vigil in Jacaraípe/ES, 11/21/99.

07. The commands of Darkness and us

During some months, a negative beings attacked me, while sleeping and cleaning the inferior astral accompanied by our Guardians. We are, with much love and dedication, true spiritual street sweepers.

In this type of work, we face unhappy brothers subdued by the Commands of Darkness.

The battles have been intense, continuous and inevitable, said the Ashtar command. The current wars and violence that invade the earth, they reflect partially what happens in the inferior astral of the planet.

From there, we bring spirits that are trapped, because of millennial angst and rebellion imprisoned by their own conscience and by dark forces dominating over there.

They neither were good spirits nor arrived there for divine injustice. They prepared the abyss in which live now, since they were embodied spirits.

They were the tyrants of every type, religious fanatics, inhuman and cruel scientists, operators of sex, slavery, corrupt politicians, and professionals of abortion. In short, they neither recognize the Divine Laws nor respect them.

We also fought and reached the opponents that night. As leader of the "Grupo Espirita Servos de Jesus", I fought with a "boss of the darkness." Later, I knew, through the Mediums that participated and watched the duel that, the boss of darkness reached me, when I failed in vigilance, thinking him out of combat. Finally, he was badly injured, and I had my physical body sick for a few days.

This explanation was necessary to understand the third message of Hercílio, transcribed below.

08. Battles

Sister Margarida,

Do you know that you are an important commandant of a Great Army of Light? May your strength and determination guide your actions! Your ability to command and action and your victories, which are also ours, make us very happy.

Your "astral body" detaches from "physical armor" rapidly. When you are free, the clarity of thought and skill of your young spirit makes you happy.

Being you rebellious and reluctant, when rings the sounds the return, your spiritual body does not adjust perfectly. This physical body serving you longer, now, it resents your young and vigorous vibration. Thus, it demands urgent adjustments and then, a group responsible for this type of operation has been working in your astral and physical body. You did not accept to rest, do you understand?

Why do you refuse to rest? Despite being in treatment, you continue fighting, without resting the physical body.

Your faith is essential for your partners.

Peace and Love!

Hercílio Maes, GESH, 02/11/00 - Vitoria/ES – Brazil.

09. Result of the Duel

Clairvoyance: I saw myself in Margarida's room in which ceiling had not roof. I saw her in the arms of two Beings of Light. She had astral body, but was unconscious.

Suddenly, the room was transformed into a kind of highly specialized operating room. Other Beings of Light approximated and made a complicated operation connecting her astral body to the double ethereal and physic body.

Something had happened very seriously, making difficult the union of bodies.

Somebody said to me, telepathically, that when unfolded, she did not want to return to her physical body due to a huge gap of vibration among her physical-astral-mental bodies that were in full energy. The operation was very difficult; however, I just witnessed a small part. I was in Margarida's room with another companion waiting for the result.

10. Clairvoyance by other Medium, at the same meeting:

I see Mrs. Margarida receiving strong impact of negative energy. Before being hit, an illuminated shield of protection involved her, however, the impact was so strong hitting her.

I see her carried by Extraterrestrials somewhere, where joined a group of other beings, also Extraterrestrials. Among them were Orthon, Orthan and Orthanine, doctors of Orion who are always taking care of her health. They told us, the fragility of the physical body, she would feel badly for some days, therefore, besides the negative impact receiver, her spiritual body out of the matter, and it was very difficult return to her tired and fragile physical body.

She is receiving specialized treatment.

11. Report of another medium about the duel

I saw our Group fighting with negative beings, in the Astral Plane. On a level above ours, Mrs. Margarida also fought with only one being, while we struggled with several ones. Her opponent was a boss of negative beings shaped as big reptilian.

The fight was already advanced, because the "reptile" had lost its tail, hands and head. It was a horrible picture, but it was still standing up sustained by its black heart, which I could see through its body as if it were transparent.

The darkness was so intense that irradiated a type of disgusting mistletoe. While I observed that detail, the strange being threw a strong jet of that disgusting black liquid on the head of his opponent. On that moment, I saw emerge in space, an illuminated hand of our dear Master Ramatis between the jet and the head of our sister. Even so, the vibrations of the jet crossed her physical structure destabilizing her.

After that, an Instructor said that we should attack directly the heart of those beings, rather than only cut off their bodies. The strength to sustain them also comes from his black heart.

12. Our imperfections

Many of you were with us, when were trained for this current task with the homeless (refers to ASJ). Your task will be always difficult, however, you already have in your hearts, the spark of light able to provide the force necessary to act properly.

For the time being, you do not need our help, but to defeat your imperfections that represent the sparkles that could cause the fire premeditated.

On that moment, I realized that the place looked like a battlefield, which could start a duel that, unfortunately, happened and remains. Again, with Hercílio's words:

In this case, the charitable assistance you can offer to the poorest ones is the less relevant, because, in one way or other, the Mercy of Divine Action would help them.

You are you the poorest ones who have everything and refuse the work you are invited to perform.

To overcome their own insubordination to the Design of the Father, their own pain, despair, disappointment is what you have to use at service of charity.

Learn to serve, and perceive that there will be no more needs to supply in you. Intimately, experience the Peace, and you will be free to follow Master Ramatis.

Hercílio Maes

Medium's note: After the message, I asked to see him who allowed turning around, but I could only see a white robe. I tried again, without success. I felt that he smiled and looked at me, as a father looks for a child who wants to do something beyond his strength.

I felt embarrassed again and he touched on my head. After that, he entered in a starship suspended in the air. I did not see him. I had the impression that he had in his hand, something like a candle or lamp.

GESJ, 07/21/97 – Vitoria/ES, Brazil.

The message above was the first received after his death.

He refers to annoyance and intolerance of some volunteers who just know how to give orders, and want to neither work nor learn. This imbalance causes disharmony, to good advantage of the "Darkness".

I believe the warnings of Hercílio reached directly them.

Margarida

CHAPTER 2 – MEMORIES OF AMERICA PAOLIELLO MARQUES

All of the creatures on the earth are susceptible to suffering, because all impinged suffering to the neighbor.

What differentiates them from each other is the time that have awakened their consciences into the Light and what have done in favor of the others, and of themselves putting aside the feelings of the delay such as hatred, resentment, bitterness and revenge.

The pain provoked by the events of "ends of times" will reach all equally, but the final destiny of each one will be determinate by who has himself in favor of others and, if the quota of love is larger than the pride and the rebelliousness in the soul.

Renew your intimate and work with, because the Apocalypse comes for you.

André Luis, GESJ – 08/22/08.

01. Messages from the Great Heart

My friendship with America came after reading her wonderful book, "Messages from the Great Heart" purchased at Livraria *Freitas Bastos/ RJ*, in 1969. This book contains beautiful messages that enrich the spiritual knowledge for those who seek sincerely divine teachings.

After reading the book, which made me very happy, I send her a letter to which I got an answer. Thus began, or rather, we retook our "old ties", as will be described here.

Among the many letters that I had answer, I will transcribe one from 1973, when she said that had included my name in mediumistic meetings, though I had not requested, so that our Mentor Ramatis indicate, specifically, the type of work performed by GESJ (Grupo Espirita Servos of Jesus).

At that time, the Group had three years of existence and in lack of everything, including mediums. In that whole context of poverty, I offered all my love, work and determination at service of the Spirit Doctrine.

After reading the letter, I was very happy. It was so much emotion to my poor Spirit at that time.

I ask, particularly, the followers of the Master Ramatis to read and draw their conclusions. For me, that strong incentive remains. Thank you, dear sister, for your generosity.

02. Master Ramatis answers to America

Margarida Carpes,

We owe this sister, a word of encouragement, as long due. Our sister Margarida is a flower that needs to be watered, because, the sun is drying out the soil around its stem and satisfied, day-by-day, with the dew falling, when we decided to sprinkle his spirit with the refreshment of care, and love requested. While she sleeps, we assist her so that her spirit takes a bath in the balm that Spirituality offer for those who believe in her.

Sister, do not feel alone for not having the mediumistic faculty. You are not away from our spiritual influence. Without notice, we tell you the direction needed for your spiritual evolution.

Sister, know that you do not depend on mediumistic faculty connect with us, but through desire for peace to the forces of love that do not resist this appeal and wish to express eagerly through the spirits devoted to love and serve the Lord.

We hope to shed in these words, all the love that her prayers and calls cause in our mind. We reaffirm, through this message, that the Superior Spirits of the Great Heart colony address vibrations direct rays to her spirit. We hope harmonize gradually with the objective of the work, which we perform in the Brazilian Territory and, with other brothers that we also have contact and, especially she fulfill and follow up the work that the Lord gave her.

No way, we want see our sister feels unable to continue her task, without relying on someone, because, since ancient times, we used influence our dear ones to develop self-confidence. We recommend our sister, friend and disciple to meditate on that phrase of the Eco by Ramtis, "I come to invite you to become patrons of your own spiritual progress. If you do not believe in, who will do it for you?" It became a program for this group and all who love the Lord

Jesus within the same vibration of remote times. This is a work program, a narrow road towards the Lord Jesus. We hope that after reading message, she felt like a flower that before the sunrise or sunset opens to the universal beauty, while the gardener comes with the spray cooling water that bathes the flowers, and she take a bath in all purity of the loving vibrations from the entire universe.

We hope our dear Margarida be strengthened and continue strong toward the sun of the spiritual life. We have no special advice though this medium, because we want to develop in her, trust through the intuition. While sleeping, call us, and when you wake will know which road to take to meet Jesus.

Ramatis

Margarida,

While Ramatis said these words, our group saw a daisy (flower) immersed in pure water, turned to the sun and became a sunflower. That image reveals that by honest effort, we can capture inspiration from Spiritual World, since we wish.

Sorry about the delay for this orientation, only God knows how to fulfill so much work.

I hope you are more confident, because only love is the compass and God everything.

Hereafter, we will publish booklets with themes of lectures offered monthly, in addition to slides and recording. Thus, we want to facilitate the studies of groups outside of Rio de Janeiro, though, whenever possible, continue to travel to direct contact with other brothers. All this material can be mailed upon request. There are 28 lectures, which form a course with fundamental issues received from our Spiritual Guides that are very useful, especially groups associated with Christ.

I hope to see you soon in Rio.

Hugs from your sister and friend,

America

Note: After reading again, all letters and cards, I decided to highlight some paragraphs from 1972 to 1991. Since then, her health did not allow the enjoyment of the exchange of news.

Dear sister, a kiss in your generous heart.

Margarida

03. In reply to my letter

Margarida, my sister,

I reward your so nice greetings, on behalf of Jesus.

It is a great joy to feel another sister in our vibratory field. I am writing at down, for not delay my answer.

I hope the links, so well identified by Hercílio Maes increase among us on earth. We also work in a rented small room, not very favorable, but with the necessary. When has love, the sounds of the external vibrations are reduced.

As soon as possible, we will include you in our spiritual work.

According to what we have learned, we know that it is better a right thought than excessive mediumship for correct performance of duties. If there is love, there is harmony and protection, said our Spiritual Guides.

I have made contact, through letters, with many brothers from all over Brazil, who love the spiritual teachings. I find great comfort in that. I hope the sister also feel the same joy and incentive to pursue her tasks.

May Jesus strengthen your spirit and of your team!

Faithfully,

America Paoliello Marques

04. Another Note

Margarida,

I hope that after retaking your spiritual tasks, you have your heart prepared to meet in Jesus, the notion of smallness and helplessness, which always threatens us, when it refers to act on behalf of Spirituality.

At the meeting of the Cultural Department Ramatis, I felt a strong intuition coming from Ramatis to encourage you to be confident. My question to you “**what for serves our head, Margarida?**” It came from him who always insists that we shall be confident and faithful to the commitments, believing that we can fulfill them, when Jesus inhabits our hearts.

Ramatis wants to see you confident and humble, at the same time, as he has always alerted me in the same direction.

It is always a great joy, your presence among us. We hope Jesus may bless your tasks to neighbor, as yourself.

A hug from sister

America Paoliello Marques

05. Untitled letter

Margarida.

Whenever a group of brothers is organized, a greater hope, work and love appear on Earth. I am very happy with this group. We are families linked by ties of affection. That Jesus gives you His peace get from many and profitable fights.

I would like to speak of spiritual matter. I waited for you, before boarding, but certainly, you had not time. However, what is important is in the spiritual plane. Many talk and do not understand and others understood without talking.

I have had opportunity to talk to our brothers, theosophists and yogis about the work of union between East and West, and the mission of mediumship with Jesus.

Our task is to try to unite the spiritists “orthodox” or “Kardecists,” and the currents of ancient spirituality, of which results the current Spiritism trying to utter a cry of warning so that people avoid separatism in the name of That who is Love and Unity. On both sides, we find difficulties. Among Spiritists or Spiritualists who cultivate so ideas that prevent them to see and to feel in their brothers, companions of the Way, where the Pastor is really only one.

A hug from sister and friend,

America Paoliello Marques

06. Untitled Letter

Dear Margarida,

I received on time, your letter today, through your sister-in-law. I needed of these words. Who is Simba? What beautiful words that express exactly what I feel!

I think that our guides know our difficulties and send us good words from friends connected with our vibrational field and ideal of love toward the peace.

Thank you, Margarida. I received a good soul at right time to heal a wound that bled!

I am facing natural troubles referred to the consolidation of all spiritual work, when the shadow threatens many dear friends. I just had the following intuition: "why act with Love and Justice, if on that difficult moment, the worker does not ensure inner peace?" Our dear Ramatis assured me that right, deeper in the conscience, urging me to ensure my right to peace! You came and reaffirmed it! Probably he has inspired you.

I hope that sooner Margarida (Daisy) becomes a sunflower, secure to follow her through the Sun of Life, in the infinite space of Spirituality. You and Andrea (the President of the Fraternity Spiritist Ramatis) are two sisters who faithfully reflect the love that our dear Ramatis want always present among his followers. May Jesus protect us!

Yours sister,

America Paoliello Marques

07. Untitled Letter

Margarida.

Our task of trying to unite, it seems well. By the end of the year, I have four lectures in Spiritist Houses, and four in theosophical and yogis groups. Moreover, in college, I have received excellent opportunities to expand the teachings of our Spiritual Guides.

I ask you to pay particular attention referred to the tasks performed by the Triangle Fraternity, the Rose-Cross, and Good-News, with articles entitled "The Evolutionary Process". I will speak about this issue to theosophists and yogis by request of Mr. Hermogenes. I will try to get attendance of spirits to consolidate the bonds of love.

We have been well received by Gal. O'Reilly Milton de Souza, ICEB, and we are working in prisons with the brothers of FEEG. In these contacts, we have had opportunity to talk and dispel misunderstandings, which we expected to find, and that will come more and more. Nevertheless, as Jesus said: "We need the scandal, but unhappy those who produce it." We confront the consequences of such a scandal, because it is healthy, the same that He dedicated himself to be faithful, above all, to the concept of love, and service to the Good.

My best wishes of peace for you. You can remain small in number, but of great dedication to the work of Jesus.

Faithfully,

America Paoliello Marques

America moved for spiritual plane. Today, she inhabits the City of the Great Heart, in the region of Goias, where is also Brazil's heart chakra.

As you can see, life goes on, some leaving from Earth to other regions and others arriving from near or distant regions, similar the day-by-day in important airports and bus stations.

America is alive, because the spirit is immortal. She works, studies, helps and visit, whenever is possible, her friends of the physical plane, (ours).

I know that not everyone has the happiness of her real, strong and vibrant presence, as we can, through our mediums.

Here is the proof!

08. Golgotha (words of Margarida)

Once, involuntary, immersed in a distant past, quickly, passed by my mind, a small flash of a sad episode, well known in the history of the Christianity, which I called Golgotha.

It happened on any Monday, around 1982-84, during a mediumistic meeting. Again, I repeat that I do not have mediumistic faculty in this incarnation. However, as a student and follower of black magic in remote times, obviously I had it highly developed and well trained. Once, I asked to my Spiritual Guide, Shama Hare, why not I chose to become a medium in this life, since I would create and manage a Spiritist House. He immediately replied to me:

Non-mediumship

Even in case of balanced mind as you that have already burned much your karmic debts, after suffering so much in the abyssal regions, bear in mind that in past lives, since have lived as a disciple, you fought until reach this present stage.

Even so, many of your companions of those dark times, they stayed behind with so much hate and, if you had any mediumistic faculty, you would suffer hard interference, which would difficult your mission in this incarnation.

You have another mission, which is to guide those stayed behind, but linked to you, just in the field of magic, so you chose this severe test.

On the other hand, through the work you are doing, you are almost a medium of direct contact with Energies of pure intuition.

May the energies that govern the entire universe sustain your hard journey!

Peace and Light to you!

Shama Hare, (Margarida's Spiritual Guide), 07/01/99 - Island of Easter

Let us return to Golgotha.

After the concentration, as exercise for clairvoyance required, I asked everyone present what had seen. Surprised, I heard from an experienced medium, the following:

- "I saw myself in Jerusalem, on desert streets, and the local people were sleeping. Next, I was on top of the Golgotha following very closely the removal of Jesus from the cross."

In attendance were present some people more connected to the Divine Master. The Medium mentioned some names that I do not remember. However, what stunned me was when she said, "You also were present to that act of love." She continued: They put a white blanket on the floor and laid the maimed Sacred Body of Jesus.

They involved Him carefully, with great compassion and respect. After that scene, I returned to reality and I did not see anything else. I think they took Him to the grave."

No news about it, because many mediums, voluntarily or not, dive deep into the past, see clearly the present and cross the boundaries of the future. We

have already experienced similar situations. The interesting is that, even without previous planning, I had seen the same scene with less detail and faster than she had.

I remember of that place on the top of a hill, red land, with many free stones inherent to the constitution of the land itself.

Among the people present in that last and painful scene, was Joseph of Arimathea, people dressed in white, and silent.

The moon with its charm and beauty was shining everything, as if were a clear day. It would compose a beautiful picture, if it were some happy, festive situation, which was not. There was only a silence hurting our souls, infinite sadness and pain printed the faces of those present there, at down.

Along those years, I have been wondering: Why that quick retrospective to 2000 years ago? Why that my unusual clairvoyance, at the same time, by myself and another friend of mine, since the group was not meditating on that subject? We do not give themes for clairvoyance, astral trip, psychography and other types of mediumship. It is rare event.

Many years later, another revelation came, in addition to the previous one.

09. Vigil on the Beach

On that afternoon, we began the vigil, on the Beach of Jacaraípe/ES, reading the book "*Jesus and Jerusalem renewed*" dictated by Ramatis and psychographed by America Paoliello Marques. Therefore, I said to my companions about the unforgettable words I had heard from our dear sister, America, few times we met each other.

I remember, when I asked her: America, why beings as evolved as the Master Ramatis bring us strength, courage and wise lessons to our journey on earth. We do not deserve, and so, she replied: It is not merit Margarida. That is love!

Let us return our report.

After the reading, we were concentrated and, to our surprise, America visited us with her habitual beautiful message.

Thank you, dear sister. May God bless you! Soon, we will be together in a beach of this long Brazilian coast, to continue calmly, our dialogue. See you later, sister.

Margarida

10. Misunderstandings about the matter

Clairvoyance: I see Margarida and America sitting on the beach, talking like old friends. I caught the following words of the conversation:

- "We try, briefly, to forget the mistakes of the matter so that we continue working toward the evolution. Many Workers of the Lord need of other workers of last hour to fulfill the Great Work of Christ.

I am sure that, as spark generated by God, I must follow the only road able to take me back to the Father's House. I try to help those that I love and, equally I do not refuse sincere co-operation.

Dear sister, the immortal spirit is full of life; is extremely strong when it decides to progress. However, as embodied spirits, despite all knowledge, we are not able to access its strength and importance.

Let us go ahead confident in our Master Ramatis that brings us, as spiritual family, and to work hard to materialization of the New Land, and everything else comes by the Father's Mercy.

Jesus is the Road, the Truth and the Life.

With love,

America, (psychography), 03/22/03, Jacaraípe/ES.

11. Words of America

Another Medium present in the vigil, at once, without one knew what was happening with the other medium, received from our sister America, the following message:

- To be a sincere disciple of the Master Ramatis, is not only acquiring his teachings, but practice them. To face the world with courage, not caring about the contempt received, it requires strength and faith to escape from those who consider themselves the owners of all truth. These disciples are scarce in the world where you live.

The Master is sad, because many workers gave up the work. Even so, the work continues. Other workers appear, not so well prepared, but with good will and faith. To these, we should pay special attention because, although they are still fragile beings, they advance unafraid to face the Beast.

The deserters, those prepared to work, for material convenience, or fear of ridicule, they abandoned you. Even so, do not abandon them. The disciples of last hour should think about such negligence of those brothers that gave up the work.

We seek improvement in the matter, but we cannot forget that, only as immortal spirit we achieve perfection. The matter is limited and transitory, always requiring large effort to overcome the dense chains impeding the spirit to fly. We should always be free from these chains for not become them stronger.

He, who gives up the service, has heavy chains attached to him, and difficult path to tread until get free again.

Go confident, sure that the intense Light of the Masters drives us.

Peace always!

America (psychography), 03/22/03, Jacaraípe - Serra/ES – Brazil.

12. I met Jesus

Even on that memorable afternoon of a beautiful summer, we received from our dear America, another message, in addition to mine clairvoyance and of other medium.

After the afflicted days, when the conscious reaches the extraphysical reality and adjust the thoughts, allowing me act in favor of the Good (refers to the first days, after disincarnating).

As beloved disciple of Master Ramatis, I can see that you are always strong and courageous in divulging the Lessons of Universal Love recorded in your soul, likewise it happened to me.

I met Jesus. I also was there, in that important period, when we learned with each in our spiritual path. We were embodied spirits on Earth, with the objective to draw the first lines of the future disciple who would reveal to the world, the universal sense of the extraordinary mind of the Master Ramatis.

Every day, I am better balanced. As embodied spirit, I try to maintain the flame of work. The work is slow, because my forces are not completely

balanced yet. It is due to the past, and, although free, the spiritual body still keeps attached to the vibration of inferior bodies.

I have been trying to wake those who sleep on the "treasure of light" (refers to Triangle Fraternity Rose and Cross, group that she founded and directed) placed in the heart of Brazil. They are my friends that, many times, we were together in prayers on behalf of the Father. They are lost, because not choose the path of simplicity.

Our Master Ramatis also knocked on that door in search of workers to serve the Light, but he only heard negatives and laments, (Refers to the book "Intraterrestrials and the awakening of humanity) such as:

- "We have not the conditions required to do it."

- "This great work is not for our poor group."

- "We have no time."

- We do not have mediums prepared for this task." (I.e. receive messages and prepare the book on Intraterrestrials).

Maybe those friends wanted one medium as prepared as Great Chico was. Despite of having large spiritual knowledge, little or nothing they understood.

Medium like Chico ready to serve and to awaken the humanity to the spiritual reality, it will take around 100 years, and after all this time, the messages, which the Master needs to transmit, will have already lost the sense. Moreover, the reality of intraterrestrial life will be already known, being unnecessary to talk about it.

If they do not understand the material world around them, how should understand the spiritual world?

How should they understand the connection between material and spiritual realities bringing hope for unprepared hearts?

Sometimes, I wonder if I have failed for not being able to transmit them an unrestricted faith in the Master Ramatis with his habitual firm and lovely words.

The years go on, and the creatures grow and die. We are immortal spirits and we only remain unchanged, while prostrating before the material life, neglecting the true vocation of perennial ascension.

Dear sister, I greet you withal my love. I can offer little of mine strength, but continues irradiating the power of faith that moved for long time united to my purposes to serve the Master Ramatis with all the strength of his soul.

God bless you, Margarida!

America Paoliello Marques (psychography), 02/22/03 – Jacaraípe/ES.

Note: Please, send to my friends (refers to the Spiritist Group she founded and directed) the publication in process, attaching them to my words of invitation to unconditional, humble and dedicated work.

Peace always!

America

13. Jesus and the Golgotha

About twenty years after those extraordinary clairvoyances in our GESJ, dear America Paoliello Marques, in an unusual and clear way confirms my presence in Jerusalem at the time of Jesus.

Recently (2004), other medium of GESH saw me, as man, that night on the hill, watching the descent of the body of Master Jesus from the cross and placed on a white sheet, when several people participated in that sublime scene. Following the report of the medium:

Clairvoyance: The local energy is strong. The intense Sun warms us.

I can see Jesus crucified on Golgotha, removed from the cross.

Margarida, who was a man in that incarnation, at distance, she carefully follows up him removed from that place. Deep emotions appear in her face. It seems that from that point, he followed new direction.

02/08/2002

14. Their eyes met each other

Clairvoyance: We were talking of messages received by the Group, when I looked at Margarida and, in her place, I saw a man with beard and mustache. Surprised, I described the scene to my companions and she, Margarida asked us new concentration to understand clearly that scene.

Through the next concentration, I saw a short man, around 25-30 years old, short hair and dark. He walked on dirt streets of a rural village. He seemed lost and confused, as if he looked for something, which made him unhappy.

In the opposite side, I saw the Master Jesus walking surrounded by small crowd. He was a strong man, tall, tan skin, and silky dark hair falling on his shoulders. His wide face with strong features, typical of his race contrasted with His big almond-shaped eyes and indescribable sweetness.

He was walking and talking with the pilgrims, as if they were elucidating some questions. Suddenly, the two characters met along the way, stopped very close to each other. For a moment, Jesus stared him as were reading in his eyes, doubts, questions, and the whole history of his life. He looked at that man, as if he already knew him, personally, for millennia. It was as if each incarnation of the boy was accessed at once.

That short time, which seemed an eternity, then, the Master gently, whispered some words to that man. Then looked at each other again, and each one took his way.

For that man, a new world seemed to come, in his eyes could be noticed a different shine. The clairvoyance ended there.

Note: that man is Margarida today.
